

Pilot Programmes: Start Small. Optimise. Expand.

CARESCAN.

Award-winning solution designed to enhance patient safety and streamline operational efficiency.

Why Pilot?

- ✓ **Ensures the solution fits your unique context**, recognising that every Trust - and every site - has different needs.
- ✓ **Refines workflows** with a smaller group of staff, ensuring maximum value with minimal disruption to your existing ways of working.
- ✓ **Builds evidence** to support the business case, making it easier to secure stakeholder buy-in.
- ✓ **De-risks the purchasing decision** by demonstrating real-world performance, treated like a true installation, before full rollout.

Roadmap to success

The pilot is backed by expert project management, dedicated support, and agile development to ensure smooth delivery and ongoing improvement.

1 Discovering your needs

Understanding your team and goals.

2 Aligning on requirements

IT and IG on board,
DPIA complete.

3 Smooth set up and access

Minimal disruption,
maximum collaboration.

4 Device set up and testing

All systems go, fully tested.

5 On-site training

Confident, hands-on support.

6 Live trial in action

Real use, real-world benefits.

7 Review, feedback and metrics

Insightful data to help you optimise and perfect your workflows.

Pilot
Pathway

Real-world impact

We work closely with Trusts to drive impactful change, with many applications. For example:

- Renal Dialysis
- Resus Trolleys
- Orthopaedics
- Loan Kits
- Inventory Management

How CareScan can help

- ✔ **Effortless Efficiency:**
Streamlined workflows free clinicians to focus on delivering exceptional patient care.
- ✔ **Enhanced Safety:**
Real-time tracking ensures the right product for every patient.
- ✔ **Smarter Decisions:**
Data-driven insights reduce errors and empower confident clinical decision-making.
- ✔ **Future-Proof & Scalable:**
Seamlessly integrates today, and evolves with the needs of tomorrow.
