

### On-Demand Videos for Orthopaedic Knowledge and Surgical Training

Discover a wide range of multimedia content, including global conference material, all saved in one place, and created for orthopaedic surgeons. An up-to-the-second search function returns relevant and reliable results, and it is **FREE TO USE!**

#### Conference videos

Watch conference sessions from meetings that were interesting and insightful, and even some that you might have missed! Choose from the BOA Annual Meeting, COA/CORS/CORA Annual Meeting and the Edinburgh Trauma Symposium, with more being added...

#### Surgical training videos

View surgical training videos demonstrating a wide range of procedures and techniques, presented by experienced surgeons and leading institutions worldwide.

#### Speaker profiles

OrthoMedia takes recognition beyond written papers with speaker profiles and DOIs. Search over 1500 speakers or add your talks and videos to your ORCID profile.

#### Transcripts

Videos are more accessible with side-by-side transcripts, allowing you to translate into another language or watch without sound.

# Ortho | Search

Bone & Joint

OrthoSearch is a **FREE** online discovery tool created by orthopaedic surgeons, for orthopaedic surgeons. Search journals, preprints, podcasts, videos, standards & guidelines, techniques and cases, getting the most relevant results every time!

## The Ultimate Search Engine for Orthopaedics.

### → All the resources you need in one place

Powered by a world-first taxonomy of 20,000+ orthopaedic-specific terms, going beyond the usual MeSH terms, OrthoSearch allows users to search everything from articles to cases in one go.

### → Easily identifiable quality indicators

All articles in OrthoSearch display journal Impact Factor, CiteScore, Altmetric score and Scite data, and literature is pre-filtered so you won't find junk science or predatory journal articles in your results.

### → Innovative advanced filters

Filter your search results by open access to eliminate paywalls, or sort by CiteScore and Impact Factor to find the high quality literature available.

### → Customisable research alerts

Sign up to state-of-the-art alerts with your own keywords and receive an email whenever new research is published.

### → Always evolving

Additional content and taxonomy terms are frequently added to the platform, with new features developed in response to community feedback.
