

IMPRESSIVE SIMPLICITY

in joint replac^ement

PALACOS® R+G pro

PALACOS® MV+G pro

COPAL® G+C pro

ALL-IN-ONE FIXATION SYSTEM™

For you and your patient.

IMPRESSIVE IN EVERYDAY LIFE.

IMPRESSIVE SIMPLICITY.

GET STARTED QUICKLY

pro is a prefilled ready to mix system that encompasses all necessary accessories for a successful cementing procedure.

BE GUIDED

Let pictograms guide you and colour coding support you through the mixing process.

KEEP CONTROL

Observe and control the monomer transfer. The translucent system allows you to reliably monitor all handling steps to always ensure high quality results.

IMPRESSIVE FLEXIBILITY.

The **pro** All-In-One Fixation System™ offers a wide product portfolio, as well as various options for mixing and application. When it comes to vacuum, type of application, the amount of bone cement or the appropriate viscosity – the choice is yours.

IMPRESSIVE RELIABILITY.

pro is prefilled with the following well established bone cements

PALACOS® R+G

PALACOS® MV+G

COPAL® G+C

PRODUCT	Description	Content	REF
PALACOS® R+G pro*	High-viscosity, radiopaque ready to mix bone cement containing gentamicin	40	5081273
		60	5081279
		80	5081280
PALACOS® MV+G pro*	Medium-viscosity, radiopaque ready to mix bone cement containing gentamicin	40	5081281
		60	5081282
		80	5081283
COPAL® G+C pro*	High-viscosity, radiopaque ready to mix bone cement containing gentamicin and clindamycin	40	5081284
		80	5081285
Accessories	pro nozzle medium; length: 241 mm; Ø 8.3–12.6 mm (conical); flexible PALAMIX® cement gun PALAMIX® vacuum pump	10	66054436
		1	66036163
		1	66036748
