 1. No limitations regarding age, gender etc. in addition to the general contra indications for total hip arthroplasty. Cementless and cemented stem options for different intramedullary anatomies and bone qualities (Surgical technique Lit. 1513, Instruction for use Lit. 12.23, X-Ray templates Lit. 2193, 2196 and technical report "Identification of the population for POLARSTEM" acc. to EN ISO 21534:2007) 2. Easy implantation with all state-of-the-art less-invasive approaches (Product description Lit. 1640) 3. Tested and approved with all femoral head options offered by Smith&Nephew (Instruction for use Lit. 12.23 and white paper Lit. 2174)

President's Message

Dear Friends and Colleagues,

Welcome to the BOA Congress in Liverpool 2017

This year the Congress programme has been developed around the theme of 'Quality and Innovation'. I felt that the issue of Quality should remain front and centre to the BOA's and our specialist society affiliates efforts. The breadth of topics, sessions and plenaries within the programme offer something to suit every delegate from medical students to senior consultants. Our faculty comprises national and international experts and we are particularly excited to be including a significant number of high profile speakers, who are eminent leaders in their field.

The sessions are designed to offer you the chance to have your say on issues affecting your specialty and wider profession. The BOA Congress is one of the only occasions in the professional calendar where you have the opportunity to network and converse with delegates who hail from across the country and overseas, and bring a wide range of expertise. This environment enables you to have a dialogue and robust debate on the growing and emerging issues.

Each day of the Congress comprises wide-ranging topics from Quality Improvement, to Hip Revalidation to Trauma. Sharing best practice, debating ideas and exploring solutions will be at the heart of each session.

The whole of Trauma and Orthopaedic services are under pressure at this time as is much of health care in general. The biggest tool we have in the ongoing debate is to show the benefit to our patients of the highest quality of care and that quality always provides efficiency.

Our patients' needs in many ways are straightforward; they want a significant reduction in their pain, improved function and a low risk. Taking our patients through care pathways that deliver that should be the aim of what we do, getting consistency is part of that but not the whole picture. We need to drive quality, which means achieving what patients want.

Driving quality applies to much of our working lives, education, research, professionalism and leadership; they all need to aspire to the highest standards. There are some significant challenges and the problem with innovation is that by definition it carries a greater risk than standard practice. It is impossible to predict that a change in treatment will definitely improve on the best achieved practice. No matter how carefully we pretest innovations in care, before they are used on patients, we are always at risk that the result of a new intervention will worsen the quality of the outcome and yet this is the challenge, how do we innovate when that reality is inevitable?

The answer has to be that we create an ongoing culture where we can introduce technological advancements in a learning culture that can be open about the results. That is part of us pushing towards a Just Culture, which is going to be a growing theme with the BOA.

We hope you enjoy the Congress and the city of Liverpool!

Ian Winson
BOA President

OFFICERS

President	I G Winson	(Bristol)
Past President	T J Wilton	(Derby)
Vice President	A M Nanu	(Sunderland)
Vice President Elect	P G Turner	(Stockport)
Honorary Treasurer	D J McBride	(Stoke-on-Trent)
Honorary Secretary	D M Eastwood	(London)

ELECTED MEMBERS

D Clark	(Derby)	2015 - 2017
S Donell	(Norwich)	2015 - 2017
M Reed	(Northumberland)	2015 - 2017
A Robinson	(Cambridge)	2015 - 2017
S Bendall	(Brighton)	2016 - 2018
K Daly	(London)	2016 - 2018
R C Handley	(Oxford)	2016 - 2018
J A M Skinner	(London)	2016 - 2018
M Bowditch	(Ipswich)	2017 - 2019
L Breakwell	(Sheffield)	2017 - 2019
S L Hodgkinson	(Portsmouth)	2017 - 2019
R W Parkinson	(Liverpool)	2017 - 2019

EX-OFFICIO MEMBERS

Chair, British Orthopaedics Directors Society	V Takwale
Chair, Council of Management of the Bone and Joint Journal	T J Wilton
Chair, Education and Revalidation Committee	H Tanaka
Chair, N Ireland Regional Orthopaedic and Trauma Committee	J McCormack
Chair, Patient Liaison Group	J Fitch
Chair, Research Committee	A Rangan
Chair, Scottish Committee for Orthopaedics and Trauma	E R Dunstan
Chair, Specialty Advisory Committee in Trauma and Orthopaedics	M Bowditch
Chair, Training Standards Committee	P G Turner
Chair, Welsh National Specialist Advisory Group for Trauma and Orthopaedics	S Hemmadi
President, British Orthopaedic Trainees Association	S Fleming
Representative, Staff and Associate Specialist (SAS)	M Morgan

HONORARY POST

Archivist	I B M Stephen
-----------	---------------

BOA SENIOR STAFF

Director of Communications and Operations	Emma Storey
Director of Events Management	Hazel Choules
Director of Finance	Liz Fry
Director of Policy and Programmes	Andrew Jazaerli

General Information

Awards

The BOA is delighted to use the Annual Congress as an opportunity to publicise and celebrate the following awards granted by the Association in 2017:

BOA Honorary Fellows

Professor Andrew Amis
Miss Clare Marx
Professor John Stanley
Professor Angus Wallace

Presidential Merit Award

Stephen Mannion

Robert Jones Essay Prize

Nick Smith

Carousel Presidents

AAOS	Gerald Williams, Jr
AOA	Regis J O'Keefe
AusOA	Ian Incoll
COA	Kevin Orrell
NZOA	Richard Keddell
SAOA	Pradeep Makan

Invited Guests

IOA (Indian) President	Ram Prabhoo
IOA (Irish) President	David Beverland
HKOA (Hong Kong) Ambassador	Kevin Ki Wai Ho

General Information

Registration

The enquiry, pre-registration and on-site registration desks are located on the lower level next to the exhibition hall.

	Registration Opening Times	Exhibition Hall Opening Times
Tuesday 19th September	07:15 - 17:30	07:15 - 17:45
Wednesday 20th September	07:00 - 17:30	07:00 - 17:00
Thursday 21st September	07:15 - 17:00	07:15 - 14:00 (Close of Exhibition)
Friday 22nd September	07:15 - 13:30	EXHIBITION CLOSED

Congress App

Download the Congress App now to your smartphones and tablets through the Apple App Store and GooglePlay (search for BOA Annual Congress 2017).

The password is Congress2017

To connect with other delegates you will be asked to create a profile, please use the email address you registered with to log in.

Please note the podium abstracts can be viewed under each of the Free Paper sessions within the programme.

The posters can also be viewed under the coffee and lunch breaks.

Thursday, no later than 14:00. Any posters remaining after this time can be collected from the registration area until 13:00 on Friday, after this time they will be destroyed.

Posters by the Clinical Leaders will be displayed on Thursday 21st September opposite the Main Auditorium Entrance on the upper level.

Exhibition

There are over 90 companies within the exhibition area on the lower level.

We would encourage all delegates to visit the exhibition stands, especially the BOA stand, 29.

Cloakroom

The cloakroom is in the galleria area near to the entrance.

Please note: Delegates will be charged £1 per item.

	Cloakroom Opening Times
Tuesday 19th September	07:15 - 19:30
Wednesday 20th September	07:00 - 18:45
Thursday 21st September	07:15 - 18:30
Friday 22nd September	07:15 - 16:30

Making the Most of Congress

For Security Purposes

Delegates must wear their pocket lanyard displaying their name badge at all times. An additional security measure this year is an attendance wristband which must be visible at all times. The wristband should be worn by delegates for the duration of their attendance at the Congress.

Scanning of Badges

You will need to scan your barcode on arrival in order to print your badge.

In order for your attendance to be registered, please have your badge scanned on arrival each day by a host located at the top of the escalators, on the upper Session Room level.

Delegate Meeting Packs

On arrival, delegates will receive:

- Name badge permitting access to all sessions
- Pocket lanyard containing the Pocket Programme
- Delegate bag containing Final Programme, pen and notebook.

Finding Your Way Around

The venue - ACC Liverpool

The Main Auditorium, Meeting Rooms 3A, 3B, 4, 11 and 12 are all located on the upper level.

Prayer Room

The prayer room is situated on the upper floor, room 15.

Media Suite / Authors Preview Room

Meeting Room 7 on the upper level is open daily at the following times:

- 07:15 until 17:30 - Tuesday, Wednesday and Thursday
- 07:00 until 14:00 - Friday

(If you are presenting, please make sure you upload your presentation in plenty of time before the start of the session)

Poster Display

There are nine categories of posters within the exhibition area, which will be displayed over three days. We request authors to remove their posters from the exhibition area on

General Information

CPD Points and Certificate of Attendance

There will be an opportunity to gain CPD points at the BOA Congress. CPD points are allocated as follows:

Tuesday:	6 points
Wednesday:	6 points
Thursday:	6 points
Friday: *	
Non-Technical Skills - RCSEd:	3 points
TOCS and TOES:	6 points

*The sessions on the Friday that are relevant to delegates personal development plans, will be eligible to claim one additional CPD point for every hour attended.

The CPD points are stated on the BOA Congress website, delegates will be required to carry out their own self-accreditation.

A certificate of attendance is issued following the Annual Congress on completion of the evaluation form, which is sent via email to each delegate.

Please Note: Delegates may request a certificate of attendance up to six months following an Annual Congress, after this time a certificate will not be issued. It is the responsibility of the delegate to make sure they receive their certificate of attendance within the stated time.

Refreshments and Lunches

Tea and coffee will be served to all delegates during the scheduled breaks.

Lunch is provided for delegates who pre-ordered and paid for their lunch online at the time of registration. These delegates may collect their lunch vouchers from the desk which states 'Lunch Vouchers' within the registration area, you will need to have your delegate badge with you when you request the lunch vouchers.

Catering within the ACC

For those wishing to purchase their lunch onsite there are four cash catering points within the exhibition area. The retail menus bring a wider offering, using local and fresh ingredients. There is also a coffee point in the exhibition area, open all-day, where delegates may purchase 'speciality coffees'.

Hotels

If you are still in need of accommodation, or you have a query on your booking, please contact TSC Hotels and Venues.

Tel: +44 1335 345655

Email: hotels@tschotels.co.uk

Travel Policy

Delegates are responsible for making their own travel and/or hotel arrangements. The BOA does not assume financial responsibility for penalties or expenses incurred by registrants who must cancel travel arrangements due to course cancellation.

In Case of an Emergency

Please note the various fire exits around you in case of an emergency.

Listen to all public announcements and make your way carefully to the nearest fire exit if requested to do so.

If first aid is required, please ask a member of staff or host for help and assistance.

Declarations of Interest

All those presenting at the BOA Congress will be asked to make their declarations of interest and display it on a slide at the start of their presentation, as discussed and agreed at the BOA AGM in 2015.

Other Information

The BOA does not accept liability or responsibility for third party exhibitors or their exhibits and does not endorse any of the products, items or processes exhibited.

Filming, recording or photography during the Congress is strictly prohibited unless with prior agreement with the BOA.

Badge Types

Bright Yellow	VIP
Orange	Guest Speakers

BOA Annual General Meeting 2017

The Annual General Meeting of the Association will take place in the Main Auditorium of the ACC Liverpool, on Thursday 21st September 2017 from 12:55 - 13:30 under the Chairmanship of Mr Ian Winson, BOA President. The agenda is below.

PROXY NOTICE: A member of the Association who is entitled to attend, speak and vote at the above mentioned meeting is entitled to appoint a proxy to attend and vote instead of him or her. For details please see the note at the foot of this agenda.

AGENDA

1. **Membership issues**
 - a. Deaths [see annex 1]
 - b. Resignations [see annex 2]
 - c. New members [see annex 3]
2. **Matters arising from 2016 AGM**
None
3. **Elections**
 - a. President: September 2019 - 2020
To report the result of the Trustees' ballot:
 - **Donald McBride**
 - b. Honorary Secretary: 2018 - 2020
To report the results of the Home Fellows' ballot:
 - **Professor John Skinner**
 - c. Council: 2018 - 2020
To report the result of the Home Fellows' ballot:
 - **Peter Giannoudis**
 - **Rhidian Morgan-Jones**
 - **Hamish Simpson**
 - **Duncan Tennent**
4. **Honorary Treasurer's Report and Financial Statements for 2016**
 - a. Annual Report of Trustees Financial Statements 2016 - see link below:
www.boa.ac.uk/about-boa/2016-annual-report-accounts/
 - b. Resolution 1: To reappoint the Auditors for 2018 - Crowe Clark Whitehill
 - c. Resolution 2: To approve the membership subscription rates for 2018 [see annex 4]
5. **Resolution regarding membership categories** [see Resolution in annex 5]
6. **President's report**
7. **Any other business**
8. **Date of next meeting**
BOA Annual Congress - 25th - 28th September 2018; Birmingham
Under the Chairmanship of Mr Ananda Nanu.
9. **Future BOA and Allied Meetings**
BOA Annual Congress - 10th - 13th September 2019; Liverpool
Under the Chairmanship of Professor Philip Turner.
EFORT Congress - 30th May - 1st June 2018; Barcelona, Spain

NOTE

BOA Home Fellows received the AGM notification and proxy form by post in advance of this meeting, explaining the arrangements for appointing a proxy. The BOA must be notified of any proxies at least 72 hours in advance of the meeting.

Items for discussion under 'Any other business' should preferably be advised to the Honorary Secretary (Deborah Eastwood) at least 72 hours in advance of the meeting.

BOA INSTRUCTIONAL COURSE 2018

6th-7th January

Macdonald Hotel, Manchester

The BOA's Instructional Course is an outstanding opportunity for trainees not only to gain a number of Case Based Discussions (CBDs) in a range of topics but also to network and attend lectures delivered by expert clinicians.

This course brings together trauma and orthopaedic trainees at all stages of their postgraduate training, to prepare for their FRCS examination.

The Case Based Discussions (CBDs) for 2018 will include: Foot and Ankle, Pelvic and Acetabular, Spine, Sarcoma and Trauma.

David Limb, Ananda Nanu, Nigel Rossiter and Hiro Tanaka will be delivering the plenary lectures at the Instructional Course. For the full list of confirmed faculty please visit: boa.ac.uk/events/instructional-course.

Places are extremely limited! The 2017 course proved to be very popular so register early to guarantee your place.

For further information please visit: boa.ac.uk/events/instructional-course.

If you have any questions regarding the course please contact: policy@boa.ac.uk.

Guest Speakers

Jan Willem K Louwerens PRESIDENTIAL GUEST LECTURE

After completing his postgraduate degree in Rotterdam, Jan worked at the Central Military Hospital as a medical officer in the Royal Dutch Air Force. Following this, he joined the orthopaedic department of the University Medical Centre, Utrecht where he sub-specialised in foot and ankle surgery. After embarking on a fellowship to the Harborview Medical Centre, Seattle, Jan worked at St Maartenskliniek centre of orthopaedics. Jan chaired the Scientific Committee and was a member of the board of the Dutch Orthopaedic Association from 2007 – 2010. Impressively, he founded and Chaired the Dutch Orthopaedic Foot and Ankle Association and is proud to be an Honorary member.

Phil Hammond HOWARD STEEL LECTURE

Phil Hammond is an NHS doctor, campaigner, health writer, investigative journalist, broadcaster, speaker and comedian. He currently works in a specialist NHS team in Bath for young people with chronic fatigue syndrome/ME. As a comedian, Phil was half of the award winning double-act “Struck Off and Die” with Tony Gardner. He has solo toured the UK three times including appearances at the Edinburgh Fringe and has appeared on “Have I Got News for You” and “Countdown” on numerous occasions. He is a fundraiser and advisor for the Association of Young People with ME as well as the Vice President of the Patients’ Association.

Professor Chris Moran ROBERT JONES LECTURE

Professor Chris Moran is National Clinical Director for Trauma for NHS England and a Professor of Orthopaedic Trauma Surgery at Nottingham University Hospital. Having trained in Cardiff and Newcastle, Professor Moran undertook fellowships at the Mayo Clinic and University Hospital, Basel. He is a full time surgeon, leading the Trauma Team, with a special interest in surgery for polytrauma, complex articular fractures and the treatment of non-union. He has led the development of the Major Trauma Networks in England, increasing survival rates for major injuries by 25% and is an international adviser on trauma to a number of Governments.

Ivan Brenkel SIR WALTER MERCER LECTURE

Mr Ivan Brenkel was born in South Africa and went to medical school in Cape Town qualifying with an MBChB in 1980. Mr Brenkel came to the UK in 1982 where he did his BST training in Leeds and Ipswich and started as a consultant Orthopaedic surgeon in Fife in 1990. Initially, Mr Brenkel was a general Orthopaedic surgeon but soon specialised in knee, shoulder and trauma surgery. For the last 10 years, he has done complex and revision knee surgery only, as well as doing a trauma list once a week. He now lectures on a regular basis in Japan, China, Australia and India on revision total knees using Metaphyseal sleeves. Mr Brenkel published over 90 papers mainly on prospective database, which he set up in 1995 and was chairman of the Scottish Arthroplasty project for 5 years.

Guest Speakers

Andrew 'Fred' Robinson NAUGHTON DUNN LECTURE

Fred is a foot and ankle surgeon in Cambridge. He has been a consultant there since 1999. He has a broad foot and ankle practice covering everything from trauma, through diabetes to ankle arthroplasty. Fred was President of BOFAS in 2010/11, having been chairman of the scientific committee for three years before this. Fred has recently been involved in drawing up guidelines on the treatment of the diabetic foot. He is a BOA trustee, deputy editor of the JTO and sits on the Training sub-committee. Fred has enjoyed being on the editorial board of the JBJS serving three years between 2005 and 2008. He started a second term with the BJJ in 2016. He also recommended papers for BJ360 from its inception through to 2016.

Professor Matthew Costa HUNTERIAN LECTURE

Matthew Costa PhD, FRCS (Tr&Orth) Professor of Orthopaedic Trauma Surgery at the University of Oxford and Honorary Consultant Trauma Surgeon at the John Radcliffe Hospital, Oxford. Matt’s research interest is in clinical and cost effectiveness of musculoskeletal trauma interventions. He is Chief Investigator for a series of randomised trials and associated studies supported by grants from the UK NIHR, Musculoskeletal Charities and the Trauma Industry. His work has been cited widely, and informs many guidelines from the National Institute for Health and Care Excellence. Matt is Chair of the NIHR Clinical Research Network Injuries and Emergencies Specialty Group and the NIHR Musculoskeletal Trauma Trials Network. He is also a member of the NIHR HTA Research Board. He Chairs the Scientific Committee of the International Fragility Fracture Network and the British Orthopaedic Association Research Committee. He is the President Elect of the Orthopaedic Trauma Society and Specialty Lead in Orthopaedic Trauma for the Royal College of Surgeons of England.

Andrej Trampuz CHARNLEY LECTURE

Andrej Trampuz is Professor for Infectious Diseases at the Center for Musculoskeletal Surgery at Charité University Hospital in Berlin, Germany. He received his MD degree from the University of Ljubljana, Slovenia (1994), internal medicine board (1997) and infectious diseases board (2000). During his postdoctoral research fellowship at the Mayo Clinic in Rochester, Minnesota, USA (2001-2004) he developed the sonication procedure of implants for improved infection diagnosis. He then moved to the University Hospital Basel (2005-2009) and Lausanne, Switzerland (2010-2013) and in 2013 appointed as the Head of the interdisciplinary septic surgery unit at Charité in Berlin. There he leads the international observership program, through which over 100 observers have visited Charité.

Professor Henrik Kehlet ADRIAN HENRY LECTURE

Henrik Kehlet was Professor of Surgery at Copenhagen University and is now Professor of Perioperative Therapy at Rigshospitalet, Copenhagen University, Denmark. He is also an Honorary Fellow of the Royal College of Anaesthetists, UK, the American College of Surgeons, the American Surgical Association, the German Surgical Society and the German Anaesthesiological Society. Professor Kehlet’s research interests have focused on surgical pathophysiology, acute pain physiology and treatment, the transition from acute to chronic pain, postoperative fatigue and organ dysfunction. These efforts have condensed to form the concept of ‘fast-track surgery’ with the aim of achieving the ‘pain and risk-free operation’. Professor Kehlet has published about 1000 scientific articles and has given more than 300 invited lectures at international scientific meetings, including several honorary lectures, the last one being the Excellence in Research Award, American Society of Anesthesiology, 2014.

+ acumed®

Customizable. Comprehensive. Straightforward.

The Acumed Hand Fracture System is designed to treat common to complex hand fractures, fusions, and osteotomies

- Fracture-specific and standard plates can be bent to fit and cut to length, providing nearly 100 plate options
- MultiScrews can be used in any hole, in any plate—and act as variable angle locking and non-locking screws in one
- Partially threaded hexalobe lag screws, innovative instrumentation, and an external fixator streamline the surgical experience

Notes

Tuesday 19th September

Hip Revalidation 1

08:45 - 09:55
Main Auditorium

Co-Chairs

- Steve Jones
- Andy Hamer

Session outline

- Peter Howard, BHS President
 - Never events. The scale of the problem in hip and knee replacement surgery
- NHS Resolution
 - Resolution/NHSLA. What is defended and what is not. An overview.
- Steve Jones
 - How and not to manage a never event - case examples
- Peter Howard
 - How to avoid never events

Discussion with Q&A

Sports Trauma and Arthroscopy Revalidation with free papers

08:45 - 09:55
Meeting Room 3A

Co-Chairs

- Mike Dobson
- Professor Fares Haddad

Session outline

- Free papers*
- BOSTAA Travelling Fellowship Report
 - Welcome to BOSTAA 2017 Meeting

Discussion with Q&A

General Orthopaedic free papers 1

08:45 - 09:55
Meeting Room 3B

Chairs

- Don McBride
- Free papers*

Trauma Networks 1

08:45 - 09:55
Meeting Room 11

Chair

- Paul Dixon, BOA Trauma Group Chair

Session outline

- Bob Handley
 - New BOASTS - Open Fractures
- Will Eardley
 - New BOASTS - Blunt Chest Injury
- Paul Dixon
 - Network Development - Five Years In
- Bob Handley, Will Eardley, Alex Trompeter, Nigel Rossiter, Dominic Inman
 - Round Table Discussion - Real world network issues

Discussion with Q&A

Hip Revalidation 2

10:25 - 11:30
Main Auditorium

Co-Chairs

- Peter Howard, BHS President
- Professor Fares Haddad

Session outline

- Bob Kerry
 - Dealing with a unit infection problem - Sheffield experience
- Ajay Malviya
 - Theatre discipline and laminar flow management
- Andrew Thomas, BOA Professional Practice Committee

Main Auditorium

Chair

- Ian Winson, BOA President

Speaker

- Phil Hammond
 - Happy Birthday NHS - a look back at the first 70 years and a look forward to the next 70

BOA Honorary Fellowship and Presidential Merit Presentations

13:15 - 13:25
Main Auditorium

The NJR: Independent Research, Quality and Innovation

14:15 - 15:55
Main Auditorium

Co-Chairs

- Professor Mark Wilkinson, NJR Research Subcommittee Chair
- Professor Ashley Blom

Session outline

- Martyn Porter, NJR Medical Director
 - Welcome and overview
- Professor Mark Wilkinson
 - The NJR, Independent Research, Quality and Innovation
- Andy Judge, University of Oxford
 - Outcomes following revision of metal-on-metal hip replacements
- Shiraz Sabah, University College London
 - Systemic effects of metal exposure after metal on metal hip resurfacing and replacement
- Paul Baker, Northern Deanery
 - Epidemiological analysis of the infecting organism in first time revision hip and knee replacements
- Razi Zaidi, Royal National Orthopaedic Hospital
 - Rate of venous Thromboembolism in total ankle arthroplasty
- Helen Ingoe, University of York
 - Analysis of factors associated with intraoperative complications during shoulder replacement and their subsequent effects on revision rates and patient reported outcomes
- Tanvir Khan, NJR Research Fellow
 - Periprosthetic fractures around the hip and knee

Discussion with Q&A

Trauma free papers 1

14:15 - 15:55
Meeting Room 3A

Co-Chairs

- Professor Alan Johnstone
- Dr Andy Schmidt

Free papers

Tuesday 19th September

Medico-Legal 1: Clinical Negligence: How to avoid being sued and what to do if you are sued

14:15 - 15:55
Meeting Room 3B

Chair

- Mike Foy, Medico-Legal Committee Chair

Session outline

- Professor David Warwick
 - Surgeons Perspective
- Dr John Dale-Skinner
 - Defence Union Perspective
- Alan Hunter
 - NHSLA Perspective

Discussion with Q&A

Quality Improvement free papers

14:15 - 15:55
Meeting Room 4

Chair

- Vinay Takwale
- Free papers*

Hand Revalidation

14:15 - 15:55
Meeting Room 11

Chair

- Sudhi Ankarath

Session outline

- Professor Raj Murali
 - How I examine a painful wrist
- Dr Daniel Earnshaw, Consultant Radiologist
 - Assessment of post traumatic wrist pain - radiology perspective
- Ian McNab
 - How I deal with post trauma ulnar sided wrist pain
- Vijay Bhalaik
 - How I deal with post trauma radial/central sided wrist pain
- Peter Burge
 - Medico-Legal issues

Discussion with Q&A

BOA Patient Liaison Group

14:15 - 15:55
Meeting Room 12

Chair

- Judith Fitch, PLG Chair

Session outline

- Judith Fitch
 - Introductions
- Liz Carroll, PLG Lay Member
 - VbCCP - What is it? - Patient impact (History and data (supplied by BOA))
- Linda Ward, PLG Lay Member
 - Patient Experience - THR

Discussion with Q&A

General Orthopaedic free papers 2

16:15 - 17:45
Meeting Room 3A

Co-Chairs

- Simon Hodgkinson, Training Programme Directors Forum Chair

- Richard Parkinson

Free papers

Medico-Legal 2: How/when to act as an expert witness in clinical negligence cases

16:15 - 17:45
Meeting Room 3B

Co-Chairs

- Peter Worlock
- Richard Keddell, President of New Zealand Orthopaedic Association

Session outline

- Mike Foy, Medico-Legal Committee Chair
 - Surgeons Perspective
- Giles Eyre, QC Barrister
 - Claimant Perspective
- John de Bono, QC Barrister
 - Defence Perspective

Discussion with Q&A

Notes

Notes

Tuesday 19th September

Hand free papers

16:15 - 17:45

Meeting Room 3A

Co-Chairs

- Sudhi Ankarath
- Ian McNab

Free papers

National Hip Fracture Database (NHFD)

16:15 - 17:45

Meeting Room 11

Co-Chairs

- Tim Chesser
- Rob Wakeman

Session outline

- Rob Wakeman
 - National Hip Fracture Database annual report
- Professor Matt Costa
 - WHiTE - integrating research into national datasets
- Kassim Javaid
 - Fracture Liaison Service - the new database
- Dominic Inman
 - HipQIP - Improving care through quality improvement
- Rob Wakeman/Tim Chesser
 - Current issues - unit amalgamation and NOACs

Discussion with Q&A

BORS: 3D Printing - Addictive Manufacturing: Innovative Solutions for Orthopaedic Challenges

16:15 - 17:45

Meeting Room 12

Chair

- Professor Mark Wilkinson, Professor of Orthopaedics, University of Sheffield

Session outline

- Professor Mark Wilkinson
 - Introduction
- Andy Hamer
 - A surgeon's perspective - What are the clinical challenges where Addictive Manufacturing solutions can help?

- Martin Jaere, Embody Ltd and Imperial College, London
 - Use of additive manufacturing in surgical planning and patient-specific instrumentation for complex procedures
- Chris Sutcliffe, Fusion Implants Ltd, Renishaw PLC and University of Liverpool
 - Porous Orthopaedic Devices by Addictive Manufacturing: An Engineer's View
- Abdul Haque, Advanced Manufacturing Research Centre, University of Sheffield
 - Addictive Manufacturing Technologies - What are the options?

Discussion with Q&A

Wednesday 20th September

Time	Main Auditorium	Meeting Room 3A	Meeting Room 3B	Meeting Room 4	Meeting Room 11	Meeting Room 12	Meeting Room A
07:00	Registration Opens						
08:30 - 10:00	Data and Registries: What do they mean for my practice?	British Limb Reconstruction Society (BLRS) Revalidation and free papers	Childrens free papers	Best of the Best		Hip free papers	Combined Services Orthopaedic Society (CSOS)
10:00 - 10:30	Tea and Coffee (Lower Level - Exhibition/Poster Viewings)						
10:30 - 12:00	Trauma Research	Carousel Presidents Session: 'Is the rationing of Musculoskeletal Care logical?'	Childrens Revalidation	Best of the Best	World Orthopaedic Concern (WOC)	Basic Science free papers	National Registry and Audit Hot Topics
12:00 - 12:10	Relocate to Main Auditorium						
12:10 - 12:40	Clinical Research in T&O: Trends and Opportunities (Main Auditorium)						
12:40 - 13:10	President's Guest Lecture (Main Auditorium)						
13:10 - 14:10	Lunch (Lower Level - Exhibition/Poster Viewings)						
14:10 - 14:40	Robert Jones Lecture (Main Auditorium)						
14:40 - 14:50	Relocate to Session Rooms						
14:50 - 16:20	Trauma Revalidation 1	British Indian Orthopaedic Society (BIOS) 1		British Orthopaedic Trainee Association (BOTA)	Where are we with Enhanced Recovery Joint Replacement in 2017?	Foot and Ankle free papers	
16:20 - 16:50	Tea and Coffee (Lower Level - Exhibition/Poster Viewings)						
16:50 - 18:20	Trauma Revalidation 2	British Indian Orthopaedic Society (BIOS) 2	Spine Revalidation 1	BOA Young Investigator Award	Bone and Joint Journal (BJJ): How to negotiate the challenges of T&O research	British Orthopaedic Society (BODS)	
BOA Council and Invited Speakers' Dinner							

Notes

Notes

Wednesday 20th September

Data and Registries: What do they mean for my practice?

08:30 - 10:00

Main Auditorium

Chair

- Ian Winson, BOA President

Session outline

- Ian Winson
 - BOA view on challenges and opportunities of more data: The 'just culture'
- Martyn Porter, NJR Medical Director
 - Using NJR data for reflection and appraisal
- Dominic Inman, Orthopaedic Trauma Lead, Northumbria NHS Foundation Trust
 - Using our NHFD data to assess and improve our service: view from a Trauma lead
- Tim Spalding, National Ligament Registry
 - Using emerging registries for reviewing practice and outcomes
- Lee Breakwell, Spinal Surgeon and Responsible Officer at Sheffield Children's NHS Foundation Trust
 - Data, appraisal and revalidation - what is your appraiser/Responsible Officer looking for?
- Julia Trusler, BOA Programme Director for Quality Outcomes
 - Do you know what is published about you and your hospital's T&O service?
- Matt James, CEO of Private Healthcare Information Network (PHIN)
 - PHIN and publication of health data from private healthcare

Discussion with Q&A

British Limb Reconstruction Society Revalidation and free papers

08:30 - 10:00

Meeting Room 3A

Co-Chairs

- Durai Nayagam, BLRS President
- Alwyn Abraham

Session outline

Free papers

- Pete Calder
 - Knee deformity in the growing skeleton - assessment and management

Notes

- Matt Dawson
 - Osteotomy options for the mal-aligned knee
- David Stubbs
 - How I assess and treat deformities around the adult knee
- Urjit Chatterji
 - Arthroplasty around the mal-aligned knee - evidence for and against

Discussion with Q&A

Childrens Free papers

08:30 - 10:00

Meeting Room 3B

Co-Chairs

- Fergal Monsell
- Karen Daly

Free papers

Best of the Best

08:30 - 12:00

Meeting Room 4

Chair

- Simon Hodgkinson, Training Programme Directors Forum Chair

Inadequate Pre-Operative Glycaemic Control in Patients with Diabetes Mellitus Adversely Influences Functional Recovery after Total Knee Arthroplasty

Brock. T, Shirley. M, Bardgett. M, Walker. M, Deehan. D.J, Newcastle upon Tyne Hospitals NHS Foundation Trust

Wednesday 20th September

Spinal disease in myeloma: Cohort analysis at a specialist spinal surgery centre indicates benefit of early surgical augmentation or bracing
 Malhotra. K, Royal National Orthopaedic Hospital

Hip free papers

08:30 - 10:00
 Meeting Room 12

Chair

- Andrew Manktelow

Free papers

Combined Services Orthopaedic Society (CSOS): What should I do if I am on call during a terrorist attack? Injury mechanisms and initial management associated with terrorist wounding

08:30 - 10:00
 Meeting Room A

Co-Chairs

- Professor Hamish Simpson
- Colonel David Standley

Session outline

- Surgeon Captain Sarah A Stapley, Royal Navy, Defence Professor of Trauma and Orthopaedics
 - High and low energy gunshot wounds: Management depends on energy - how to decide which strategy your patient needs
- Colonel Jon J Clasper CBE, Visiting Professor to Centre for Blast Injury Studies, Imperial College, London
 - Understanding bomb projectiles and blast injury including blast pelvis. How does the management of the patient, the bone and the soft tissues differ compared to the RTA victim?
- Surgeon Commander Mansoor Khan, Royal Navy, Senior Lecturer Academic Department of Military Surgery for Trauma and Consultant in Trauma, St. Mary's Hospital, London
 - Current trends in knife attack; what to look out for in terrorist victims
- Professor Chris Moran
 - Recent terrorist events within the UK - Lessons we can learn

Discussion with Q&A

Notes

Wednesday 20th September

Childrens Revalidation: Upper Limb Trauma; Controversies, tips, tricks and illustrative cases

10:30 - 12:00
 Meeting Room 3B

Chair

- Fergal Monsell

Session outline

- Anna Clarke
 - Wrist
 - Shoulder
- Matthew Barry
 - Forearm
 - Humerus
- Ed Bache
 - Elbow

Discussion with Q&A

World Orthopaedic Concern (WOC)

10:30 - 12:00
 Meeting Room 11

Co-Chairs

- Steve Mannion, World Orthopaedic Concern Chair
- Deepa Bose

Session outline

- Steve Mannion
 - Welcome and Introduction
- Dr. Biruk Lambisso
 - Orthopaedic practice in Ethiopia
- Deepa Bose
 - WOC at the Black Lion Hospital
- Laurence Wicks
 - Leicester - Gondar Project
- Anthony Clayson
 - Hawassa and NOTAA
- Rick Gardner
 - CURE in Ethiopia
- Steve Mannion
 - Clubfoot in Ethiopia and ACT

Discussion with Q&A

Notes

Basic Science free papers

10:30 - 12:00
 Meeting Room 12

Co-Chairs

- Professor John Skinner
- Simon Donell

Free papers

National Registry and Audit Hot Topics

10:30 - 12:00
 Meeting Room A

Chair

- Ananda Nanu, BOA Vice President

Session outline

Quality and Innovation in T&O Registries & Audits (10:30 - 11:15)

- Kate James, National Lead for Trauma and Orthopaedic Access Programme
 - A Scottish Perspective on clinically-led quality improvement
- Vikas Khanduja, Chair of NAHR Steering Committee/ Ajay Malviya, NAHR Steering Group Member
 - Non-arthroplasty hip registry - annual report launch
- Professor Mike Reed, Orthopaedic Surgeon Northumbria NHS Foundation Trust
 - Update on Bone and Joint Infection Registry (BAJIR)
- Ashley Cole, TORUS Steering Group Chair and Spinal Surgeon
 - TORUS (Trauma and Orthopaedics Registry Unifying Structure): Introduction to the TORUS programme

National Joint Registry Hot Topics (11:15 - 12:00)

- Matthew Porteous, NJR Data Quality Committee Chair
 - NJR and Data Quality
- Peter Howard, NJR Surgical Performance Committee Chair
 - NJR and Monitoring of Surgical Performance

Discussion with Q&A

Wednesday 20th September

Clinical Research in T&O: Trends and Opportunities

12:10 - 12:40

Main Auditorium

Chair

- Deborah Eastwood, BOA Honorary Secretary

Speaker

- Professor Amar Rangan, BOA Research Committee Chair
- Clinical Research in T&O: Trends and opportunities

Presidents Guest Lecture

12:40 - 13:10

Main Auditorium

Chair

- Ian Winson, BOA President

Speaker

- Jan Willem K Louwerens
- "The older you get the less you know for sure; is it all Bias and Emotions?"

Robert Jones Lecture

14:10 - 14:40

Main Auditorium

Chair

- Miss Clare Marx, Immediate Past President, Royal College of Surgeons of England

Speaker

- Professor Chris Moran
- Surviving Major Trauma: The patients' perspective

Trauma Revalidation 1: Trauma in the Older person - it's here to stay

14:50 - 16:20

Main Auditorium

Co-Chairs

- Nigel Rossiter
- Professor Matt Costa

Session outline

- Faye Wilson
- Key factors in setting up an orthogeriatrics service
- Bryony Elliot
- 5 things every orthopod should know about peri-operative care of the elderly from an orthogeriatrician
- Duncan Whitwell

Notes

- Pathological fractures in 2017 - Should we always biopsy? Should we be asking the tumour centres for an opinion? Can we afford not to?

- Alex Trompeter
- Weight bearing - is there ever a reason not to?
- Bob Handley
- Bisphosphonate fractures - the other side - what to do with the contralateral limb

Discussion with Q&A

British Indian Orthopaedic Society (BIOS) 1

14:50 - 16:20

Meeting Room 3A

Co-Chairs

- Professor Gautam Chakrabarty, BIOS President
- Nikhil Shah, BIOS Education Secretary

Session outline

- Professor Stephenson, General Medical Council
- The Role and Relevance of the GMC today
- Anna Rowland, General Medical Council
- Fitness to practice - GMC perspective
- Judith Worthington, MPTS
- The role of the MPTS - conduct of a hearing
- Darryn Hale, Clyde and Co
- A defence view
- Professor Raj Murali
- Performance assessment
- Rakesh Kumar
- Remediation - a personal journey

Discussion with Q&A

British Orthopaedic Training Association (BOTA)

14:50 - 16:20

Meeting Room 4

Co-Chairs

- Simon Fleming, BOTA President
- Vittoria Bucknall, BOTA Vice President

Session outline

- Simon Fleming
- Changing T&O Culture Update
- Regis O'Keefe, AOA President
- Why Diversity and Unconscious Bias Matter
- Sam Tross
- We Still Live an Era of Diversity "Firsts" - Can We Do Better?

Wednesday 20th September

- Peter Jones
- Unconscious Bias

Discussion with Q&A

Where are we with enhanced recovery joint replacement in 2017?

14:50 - 16:20

Meeting Room 11

Co-Chairs

- Professor Mike Reed
- Kevin G.S. Orrell, President of Canadian Orthopaedic Association

Session Outline

- Professor Mike Reed
- State of enhance recovery in the UK - where are we?
- Professor Henrik Kehlet
- What we have learnt so far
- Henrik Husted
- Day case joint replacement - a step too far?
- Combined intra-articular and intravenous tranexamic acid

Discussion with Q&A

Foot and Ankle free papers

14:50 - 16:20

Meeting Room 12

Co-Chairs

- Matt Solan
- Roland Russell
Free papers

Trauma Revalidation 2: Big Kids or Small Adults? Adolescent Trauma

16:50 - 18:20

Main Auditorium

Co-Chairs

- John Keating
- Fergal Monsell

Session outline

- Fergal Monsell
- The Adult with Growth Plates - General Principles
- Martin Gargan
- Tibia/Tillaux/Proximal tibia physis
- John Dwyer
- Pelvic and Femoral fractures

Discussion with Q&A

Notes

British Indian Orthopaedic Society (BIOS) 2: Challenging Cases Interactive Discussions

16:50 - 18:20

Meeting Room 3A

Co-Chairs

- Dr Ram Prabhoo, President of Indian Orthopaedic Association
- Vijay Bhalaik

Presenters

- Badri Narayan
- Professor Bijayendra Singh
- Om Lahoti
- Anand Arya
- Professor Gautam Chakrabarty
- Professor Amit Tolat
- Nikhil Shah

Discussion with Q&A

Spine Revalidation 1

16:50 - 18:20

Meeting Room 3B

Chair

- Niall Eames

Session outline

- Calvin Soh
- Radiological investigations of acute spinal conditions
- Sashin Ahuja
- Spinal infections
- Mel Grainger
- Metastatic spinal cord compression
- Stuart Blagg
- Spinal trauma
- Jonathan Lucas
- The painful spine in a child

BOA Young Investigator Award

16:50 - 18:20

Meeting Room 4

Co-Chairs

- Deborah Eastwood, BOA Honorary Secretary
- Karen Daly

Wednesday 20th September

Bone and Joint Journal (BJJ): How to negotiate the challenges of T&O research

16:50 - 18:20

Meeting Room 11

Co-Chairs

- Professor Fares Haddad
- Professor Gareth Scott

Session outline

- Professor Fares Haddad
 - Introduction
 - The challenge of publishing and literature interpretation
- Professor Matt Costa
 - Trauma Trials: Consent for research in the emergency setting
- Dr Daniel Perry
 - Core outcomes and what they mean for you
- Xavier Griffin
 - Study Registration: How, why and where
- Professor Gareth Scott
 - Making the best impression with your paper

Discussion with Q&A

British Orthopaedic Directors Society (BODS)

16:50 - 18:20

Meeting Room 12

Chair

- Vinay Takwale, British Orthopaedic Directors Chair

Session outline

- Will Mason
 - Junior doctor training and the challenges to everyday service
- Simon Fleming, BOTA President
 - Cut it Out
- Bill Allum
 - Improving Surgical Training Project

Panel Discussion

- Professor Tim Briggs, National Director of Clinical Quality and Efficiency, NHS
 - Litigation Costs in the National Health Service
- Andrew Manktelow
 - Reducing clinical variation: The Regional MDT - the Nottingham Network

Discussion with Q&A

Notes

Thursday 21st September

Time	Main Auditorium	Meeting Room 3A	Meeting Room 3B	Meeting Room 4	Meeting Room 11	Meeting Room 12	Meeting Room A
07:15	Registration Opens						
08:30 - 10:00	Trauma Revalidation 3	Foot and Ankle Revalidation: Evidence based management of achilles tendon rupture	Spine Revalidation 2	ESSKA		Simulation and Innovation in Simulation Prize	BJJ 360° Revalidation 1
10:00 - 10:30	Tea and Coffee (Lower Level - Exhibition/Poster Viewings)						
10:30 - 12:00	Trauma Revalidation 4	Foot and Ankle ----- Naughton Dunn Lecture	Spine Bootcamp	Knee free papers		Simulation and Medical Education with free papers	BJJ 360° Revalidation 2
12:00 - 12:10	Relocate to Main Auditorium						
12:10 - 12:40	Sir Walter Mercer Lecture (Main Auditorium)						
12:40 - 12:55	2017 Awards and Medals (Main Auditorium)						
12:55 - 13:30	AGM (Main Auditorium)						
13:30 - 14:00	Lunch (Lower Level - Exhibition/Poster Viewings)						
14:00 - 14:25	President's Handover (Main Auditorium)						
14:25 - 14:35	Relocate to Session Rooms						
14:35 - 15:45	Knee Revalidation 1 ----- Adrian Henry Lecture	Trauma free papers	Spine Instant Updates	SAS Surgeons	Shoulder and Elbow Revalidation	ARMA: Putting the patient at the centre - how can clinical networks help us Get It Right First Time?	
15:45 - 16:00	Tea and Coffee (Gallery Area - Ground Floor)						
16:00 - 17:00	Knee Revalidation 2	Trauma Networks	Spine free papers		Shoulder and Elbow free papers		
17:00 - 17:10	Refreshment Interlude (Upper Level - Outside Main Auditorium Entrance)						
17:20 - 18:15	Dial Medicine for Murder (Stage Production in Main Auditorium)						

Notes

Thursday 21st September

Trauma Revalidation 3: Minimally Displaced Fractures - chance it, chase it or chuck everything at it?

08:30 - 10:00

Main Auditorium

Co-Chairs

- Mike Kelly
- Bob Handley, BOA Trauma Group

Session outline

- Bob Handley
 - Hip
- Mike Kelly
 - Knee
- Ian McFadyen
 - Pelvis
- Nigel Rossiter
 - Tibial shaft
- Ian McNab
 - Scaphoid and Ulna

Discussion with Q&A

Foot and Ankle Revalidation: Evidence-based management of Achilles tendon rupture

08:30 - 10:00

Meeting Room 3A

Co-Chairs

- Anna Chapman
- Rick Brown

Session outline

Acute Rupture

- Claire Topliss
 - Evidence for Functional Management of the acute TA rupture
- Tim Clough
 - Evidence-based surgical repair of the acute TA rupture

Rehab and the Role of the ESP

- Anne-Marie Hutchinson
 - Functional Rehabilitation: How to establish protocol in your Trust
- Alison Miller
 - Outcomes and Management of Patient Expectations

Late Presentation and Management of Late Sequelae

- Callum Clark
 - Delayed Presentation: Evidence Base and Management Options
- Heath Taylor
 - Surgical Management of Delayed Presentation/Late Sequelae

Discussion with Q&A

Spine Revalidation 2

08:30 - 10:00

Meeting Room 3B

Chair

- Stuart Blagg

Session outline

- Alistair Stirling, UKSSB Chair
 - Regional spinal networks and STIG
- Aprajay Golash
 - Cervical myelopathy
- Arup Ray
 - Acute neurological conditions/epidural haematoma
- Niall Eames
 - Lumbar disc protrusions and cauda equina syndrome
- Diarmaid Ferguson
 - LBRPP and acute LBP

Discussion with Q&A

ESKKA: Knee Osteotomy

08:30 - 10:00

Meeting Room 4

Co-Chairs

- Romain Seil
- Gino Kerkhoffs

Session outline

- Sandro Fucentese
 - PSI planning and osteotomies
- Kristian Kley
 - Minimally invasive osteotomies around the knee
- Gino Kerkhoffs
 - Intra-articular osteotomies
- Romain Seil
 - Osteotomies for the Cruciate Deficient Knee

Discussion with Q&A

Thursday 21st September

Simulation and Innovation in Simulation Prize

08:30 - 10:00

Meeting Room 12

Chair

- Catherine Kellett

Session outline

- Catherine Kellett
 - Introduction
- BOA Innovation in Simulation Prize presentations
- Shortlisted presentations
- Faisal Mushtaq "There are only two types of surgeons in the world...those who operate fast and those who do not"
- Guest speaker on simulation

Discussion with Q&A

BJJ 360 Revalidation 1: Upper Limb

08:30 - 10:00

Meeting Room A

Chair

- Benjamin Ollivere

Faculty

- Benjamin Ollivere
- Daren Forward
- Lee van Rensburg
- Michael Whitehouse
- Sebastian Dawson-Bowling

Session outline

A rapid fire round up and summary of all the latest, greatest and most controversial literature over the past year. Every paper you wish you had read (and some you hadn't) summarised and put out for discussion. All you need to know to stay up to date in elective and emergency upper limb surgery.

Discussion with Q&A

Trauma Revalidation 4: Trauma Meeting Classics

10:30 - 12:00

Main Auditorium

Co-Chairs

- Tim Chesser
- Dr Andy Schmidt

Session outline

- Dr Andy Schmidt
 - The humeral shaft in 2017 - a view from the USA
- Andrew Duckworth
 - Olecranon fractures - what's hot and what's not
- Yemi Pearse
 - Radial head - replace it, fix it or bin it?
- Steve Hepple
 - The syndesmosis - still unsure?
- Tim Chesser
 - Closing remarks

Discussion with Q&A

Naughton Dunn Lecture (Foot and Ankle)

10:30 - 12:00

Meeting Room 3A

Co-Chairs

- Anna Chapman
- Rick Brown

Speaker

- Andrew 'Fred' Robinson
 - "The Diabetic Foot - Clinical and Organisational Aspects"

Discussion with Q&A

Thursday 21st September

Spine Bootcamp

10:30 - 12:00
Meeting Room 3B

Chair

- Alistair Stirling, UKSSB Chair

Session outline

- Aprajay Golash
 - Ankylosing spondylitis
- Jonathan Lucas
 - The painful spine in a child
- Stuart Blagg
 - The medical management of the paralysed patient
- Lee Breakwell, Spinal Surgeon and Responsible Officer
 - Discitis and Epidural abscesses
- Niall Eames
 - Lumbar disc protrusions and cauda equine syndrome
- Arup Ray
 - Halo application and management of the dislocated spine
- Matthew Newton Ede
 - Classification and surgical options in thoracolumbar fractures
- Mel Grainger
 - Metastatic spinal cord compression
- Calvin Soh
 - Radiological investigations of acute spinal conditions

Discussion with Q&A

Knee free papers

10:30 - 12:00
Meeting Room 4

Co-Chairs

- Ram Venkatesh
- David Elson

Free papers

Simulation and Medical Education with free papers

10:30 - 12:00
Meeting Room 12

Co-Chairs

- Catherine Kellett
- Ian Incoll, President of Australian Orthopaedic Association

Session outline

Free papers

Mel Mckendrick "Eye tracking as a clinical skills training tool and objective measure of performance"

- Guest speaker
- Top tips in Simulation
- Catherine Kellett
 - Announcement of Innovation in Simulation Prize and Simulation free papers Prize winners
 - The BOA and Simulation

Discussion with Q&A

BJJ 360 Revalidation 2: Lower Limb

10:30 - 12:00
Meeting Room A

Chair

- Benjamin Ollivere

Faculty

- Benjamin Ollivere
- Daren Forward
- Lee van Rensburg
- Michael Whitehouse
- Sebastian Dawson-Bowling

Session outline

A rapid fire round up and summary of all the latest, greatest and most controversial literature over the past year. Every paper you wish you had read (and some you hadn't) summarised and put out for discussion. All you need to know to stay up to date in elective and emergency lower limb surgery.

Discussion with Q&A

Thursday 21st September

Sir Walter Mercer Lecture

12:10 - 12:40
Main Auditorium

Chair

- Professor Robin W Paton

Speaker

- Ivan Brenkel
 - How to monitor quality of orthopaedic care in a modern health service

2017 Awards and Medals

12:40 - 12:55
Main Auditorium

Co-Chairs

- Ian Winson, BOA President
- Deborah Eastwood, BOA Honorary Secretary

AGM

12:55 - 13:30
Main Auditorium

President's Handover

14:00 - 14:25
Main Auditorium

Co-Chairs

- Ian Winson, BOA President
- Ananda Nanu, Vice BOA President

Knee Revalidation 1: Assessment of a Painful Knee Replacement

14:35 - 15:20
Main Auditorium

Chair

- Professor Leela Biant

Session outline

- Andrew Toms
 - Clinical history and examination
- Andrew Porteous
 - Investigations and interpretation
- Andrew Price
 - Results of infective and aseptic revisions

Discussion with Q&A

Adrian Henry Lecture

15:20 - 15:45
Main Auditorium

Chair

- Professor Leela Biant

Speaker

- Professor Henrik Kehlet
 - "Fast track hip and knee replacements are good for now; but what about the future?"

Discussion with Q&A

Trauma free papers 2

14:35 - 15:45
Meeting Room 3A

Co-Chairs

- Professor Alan Johnstone
- Dr Andy Schmidt

Session outline

Free papers

Spine Instant Updates

14:35 - 15:45
Meeting Room 3B

Co-Chairs

- Aprajay Golash
- Pradeep Makan, President of South African Orthopaedic Association

Session outline

- Alistair Stirling, UKSSB Chair
 - Political Update - LBRPP/RSN/STIG
- Stuart Blagg
 - Thoraco lumbar fracture classification and management
- Stuart Blagg
 - Medical management of the paralysed patient
- Jonathan Lucas
 - The dislocated spine
- Arup Ray
 - Acute neurological conditions
- Arup Ray
 - Cervical myelopathy and radiculopathy

Notes

Notes

Thursday 21st September

- Jonathan Lucas
 - Epidural haematoma - spontaneous and iatrogenic
- Lee Breakwell, Spinal Surgeon and Responsible Officer
 - Spinal infections
- Mel Grainger
 - Metastatic spinal cord and compression
- Mel Grainger
 - Primary spinal tumours - what not to do!
- Niall Eames
 - Cauda equina syndrome
- Niall Eames
 - Acute foot drop
- Aprajay Golash
 - Ankylosing spondylitis and DISH
- Niall Eames
 - Closing remarks

Discussion with Q&A

Supporting SAS Surgeons in Career Development

14:35 - 15:45

Meeting Room 4

Chair

- Mamdouh Morgan, Representative, Staff and Associate Specialist (SAS)

Session outline

- Ian Winson, BOA President
 - Welcome
 - BOA Values the SAS Surgeons in Trauma and Orthopaedics
- Mamdouh Morgan
 - What's on the Horizon? SAS Surgeon Advisory Book
- Lisa Hadfield-Law, BOA Education Advisor
 - How SAS Surgeons can become Effective Trainers
- Hiro Tanaka, BOA Education and Revalidation Committee Chair
 - How SAS Surgeons lead on service and quality improvement
- Vivek Goel, Orthopaedic Consultant
 - My Journey: Rewards and Challenges of CESR
- Scarlett McNally, Orthopaedic Consultant, RCS Council Member
 - How SAS Surgeons can make best use of appraisal and meet revalidation standards

Discussion with Q&A

Notes

Shoulder and Elbow Revalidation: Managing the non-arthritic stiff and painful shoulder

14:35 - 15:45

Meeting Room 11

Chair

- Alison Armstrong

Session outline

- Alison Armstrong
 - The Frozen Shoulder
- Radhakant Pandey
 - The Stiff Shoulder after Trauma
- Cormac Kelly
 - Stiffness with Tumours, Sepsis and Calcific Tendonitis

Discussion with Q&A

ARMA: putting the patient at the centre - how can clinical networks help us Get It Right First Time?

14:35 - 15:45

Meeting Room 12

- Professor Peter Kay, National Clinical Director for Musculoskeletal Services for NHS England
- Gerald William, President of American Academy of Orthopaedic Surgeons

Session outline

- Professor Grey Giddins
 - Access to joint replacement surgery
- Professor Philip Turner
 - Co-ordinated care across the pathway for joint replacement surgery

Discussion with Q&A

Thursday 21st September

Knee Revalidation 2: Surgical Strategies in Revision Knee Replacement

16:00 - 17:00

Main Auditorium

Chair

- Tony Hui, BASK Honorary Secretary

Session outline

- Colin Esler, BASK President
 - Surgical approaches and extraction
- Richard Parkinson
 - 1DAIR, single stage or 2-stage revision for infection
- David Deehan
 - Tackling bone loss, instability and implant choice

Discussion with Q&A

Trauma Networks 2

16:00 - 17:00

Meeting Room 3A

Chair

- Paul Dixon, BOA Trauma Group Chair

Session outline

The new fracture clinic - outdated or necessary safety net?

- Tim White
 - Trauma Triage Clinic
- Steve Aldridge
 - The traditional model
- Sharon Scott
 - Trauma in the Older Person

Discussion with Q&A

Spine free papers

16:00 - 17:00

Meeting Room 3B

Co-Chairs

- Stuart Blagg
- Aprajay Golash

Free papers

Notes

Shoulder and Elbow free papers

16:00 - 17:00

Meeting Room 11

Chair

- Alison Armstrong

Notes

Friday 22nd September

Good Clinical Practice (GCP) Training

08:30 - 12:00
Main Auditorium

Chair

- Gareth Hayes, GCP Consultant and Clinical Research Trainer

Session outline

This session is essential to everyone who is actively involved in the clinical research arena or who is planning to do research and requires GCP certification to continue. It will provide all the latest information on the new regulations, particularly regarding Statutory Instruments, additional requirements for informed consent and the importance of the quality management systems and the audit/inspection process. It will also include details about GCP in the field of Medical Devices and the Quality Standard ISO14155. The session will finish with an update on the revised ICH GCP E6 (Version 2) and the new European Regulation that supersedes the current European Directives. The session uses a blend of trainer input and group exercise. All attendees will receive certification.

Non-Technical Skills (NOTTs RCSEd)

08:30 - 12:00
Meeting Room 3B

Faculty

- Mike Bradburn

Session outline

This is a workshop discussing, demonstrating and using the NOTTS taxonomy for observing surgeons' non-technical skills in the operating room. The role of human factors and non-technical skills in adverse events will be explored along with how better non-technical skills can reduce errors and improve performance. The workshop will involve lectures, video scenarios, interactive group discussions and audience response systems.

Notes

Medical Students' Session

08:30 - 16:00
Meeting Room 4

Chair

- Catherine Kellett

Session outline

Medical Students and the BOA

5 student presentations

- Scarlett McNally - Life as an orthopaedic surgeon
- Professor Leela Biant - Life as an orthopaedic surgeon in research

5 student presentations

- Catherine Kellett - Life as an orthopaedic surgeon in education

Practical Workshops

- Sarah Stapley - Life as an orthopaedic surgeon in the military
- Matthew Brown - Life as an orthopaedic surgeon in training
- Catherine Kellett - Top Tips for Passing Orthopaedic Exams

Presentation of Medical Students' Free Paper Prize

Clinical Examination Course

08:30 - 16:00
Meeting Room 11

Chair

- Fazal Ali

Faculty

- John Wright
- Joe Garcia
- Shantanu Shahane
- Jeevan Chandrasenan
- James Fernandes
- Amjid Ali
- James Tomlinson
- Kiran Saldanha
- James Williams
- Paul Haslam
- Paul Banaszkiwicz
- Osmond Thomas
- Ian Braithwaite

Friday 22nd September

- Nick Phillips
- Irwin Lasrado
- Kevin Wembridge
- Saeed Qaimkhani
- Stan Jones

Session outline

(09:00 - 12:00)

Lectures on clinical examination of the hip, knee, foot and ankle, spine, shoulder, elbow, hand and wrist and peripheral nerves of the upper limb.

(13:00 - 16:00)

Practical stations; Participants rotate in groups (based on experience) through stations every 25 minutes

- Stations: Hip, knee, foot and ankle, spine, shoulder, elbow and nerves, wrist and hand

TOCS and TOES

08:30 - 16:00

Meeting Room 11

Faculty

- Lisa Hadfield-Law, BOA Education Advisor

Session outline

- Assessment and feedback
- Getting the most from the curriculum
- Agreeing a learning plan
- Guiding career development
- Challenges facing trainers

Notes

Still
Flying
High

With over 20 years of clinical heritage the BHR successfully demonstrates that it provides excellent outcomes globally¹⁻⁶ with a 10A* ODEP rating⁷ and helps improve quality of life to the indicated active male patient.

www.smith-nephew.com

The BIRMINGHAM HIP Resurfacing (BHR) prosthesis is a metal-on-metal hip resurfacing prosthesis intended for use in patients requiring primary hip resurfacing arthroplasty due to non-inflammatory arthritis (degenerative joint disease) such as osteoarthritis, traumatic arthritis, avascular necrosis, or dysplasia/DDH, or inflammatory arthritis such as rheumatoid arthritis. It is contraindicated for use in female patients, as well as patients with infection or sepsis, those skeletally immature, patients with known moderate to severe renal insufficiency, severely overweight patients, and those with known or suspected metal sensitivity. For additional information on the device, indications for use, contraindications, warnings and precautions, please consult the device Instructions for Use (IFU).

3DGBIRE LTD

01257 276116
enquiries@3dgbire.com
www.3dgbire.com

3DGBIRE Ltd is the premium service provider for the desktop 3D printer world. By offering high quality products and customer focused service, sales and technical support we will ensure that all medical professionals have the resources they need to implement this revolutionary technology into the Medical Industry.

Adler Ortho UK Ltd

0151 329 0427
info@adlerorthouk.com
www.adlerortho.com

Adler UK is a subsidiary of Adler Ortho SRL, a privately owned Italian company, specialising in the design, manufacture, marketing of orthopaedic implants. Adler was the first orthopaedic company to employ additive layer manufacturing technology in orthopaedics, allowing the production of complex 3D shapes, providing an ideal porous structure to enhance biological integration. A full product range of acetabular cups, knees and custom implants using this innovative technology is available.

Notes

11 AKU Society

01223 322897
07586759028
info@akusociety.org
www.akusociety.org

The AKU Society is a UK patient group offering support to patients diagnosed with a rare genetic disease called Alkaptonuria (AKU). AKU is characterised by black urine, black spots in the eyes and ears and early onset osteoarthritis. The AKU Society co-ordinates access to an expert clinic: the National AKU Centre.

Amplitude Clinical Outcomes

65 0333 014 6363
susan.williams@amplitude-clinical.com
www.amplitude-clinical.com

Amplitude, leading supplier of electronic PROMs systems to the NHS and powering six U.K. and four International Registries. Amplitude submits National PROMs data electronically, will soon upload NJR data and its unique data exchange functionality allows data to be sent to relevant Registries. Dashboard reports provide views of a variety of metrics whilst the report writer provides a simple tool to extract raw data. Amplitude provides clinically valid data and enables the monitoring of care being delivered.

Notes

133 British Orthopaedic Trainees' Association (BOTA) 9

president@bota.org.uk
 www.bota.org.uk

The British Orthopaedic Trainees' Association, BOTA, was set up under the direction of Mr Richard Rawlins in 1987 following a meeting in Oxford when 45 Senior Registrars met at a symposium entitled 'Planning a career in Orthopaedic Surgery'. It subsequently became affiliated to the British Orthopaedic Association. Since its foundation, the membership has increased from the founding 45 to the current level of in the order of over 1000 Specialist Registrars (and recently appointed consultants). Orthopaedic Surgeons make up around 30% of the membership of the Royal Colleges, and as the largest surgical subspecialty, we work together with ASiT, the Association of Surgeons in Training, to represent surgical trainees as a collective. Currently, full membership is available to all doctors holding an NTN in Trauma and Orthopaedics and junior membership is available to all other qualified doctors in approved training programmes (ie FY, CT or non-RTT ST).

Carestream

01442 838864
 jane.grimsley@carestream.com
 www.carestream.com

Carestream is a worldwide provider of dental and medical imaging systems and IT solutions. On our stand we will be demonstrating the Carestream OnSight 3D Extremity system which uses cone beam CT (CBCT) technology to capture weight-bearing and other types of extremity exams. This compact system provides high-quality, lower-dose 3D imaging studies. This makes it an ideal diagnostic tool for orthopaedic and sports medicine in hospitals, imaging centres and accident and emergency departments.

Since 2009, Incrediwear's mission has been to revolutionise the Health and Fitness Industry with products that increase circulation to reduce inflammation, relieve pain, and accelerate recovery. Incrediwear can accelerate recovery time up to 46%. Through medical trials/product testing, we continue to show that our products are scientifically proven to increase circulation, relieve pain and accelerate recovery for symptoms affiliated with various injuries and conditions such as; arthritis, impact injuries, sprains/strains, muscle fatigue, acute/chronic injuries, and over-exercise injuries.

Intrapharm Laboratories Ltd

25 01628 771800
 marisam@intrapharmlabs.com
 www.intrapharmlabs.com

Intrapharm Laboratories is committed in providing to the NHS well known established products with proven efficacy at the most affordable prices. Triamcinolone Hexacetonide 20mg/ml (formerly known as Lederspan) is a steroid injection for intra-articular use. It is the least soluble of all the steroid injections therefore the longest acting. As fewer injections are needed this consequently gives it a good safety profile because it remains in the joint. It is the only licenced product for Juvenile Idiopathic Arthritis. Available on the NHS Hospital Contract, TH has demonstrated not only vast cost savings through the less frequent requirements for injections but also up to 2 to 5 months more pain relief for patients than other steroid injections.

www.smith-nephew.com

Smith & Nephew is a world leader in joint replacement systems, trauma solutions, sports medicine and wound care. Whether through extending the life and functionality of implants, improving operating room efficiency, promoting faster healing or improving other clinical outcomes, our innovations differentiate us and provide solutions to active patients seeking to regain their quality of life while enhancing economic value for all of our customers.

Notes

Stryker UK Ltd 79

01635262400
www.stryker.co.uk

Through CT-based 3D modelling of bone anatomy, surgeons can use the Mako Robotic Arm System to create a personalised surgical plan and identify the implant size, orientation and alignment based on each patient's unique anatomy. Mako enables surgeons to virtually modify the surgical plan intra-operatively and assist in executing bone resections. Mako is robotic arm technology that can be used across the joint replacement spectrum to perform total knee, partial knee and total hip replacements. Stryker is one of the world's leading medical technology companies and, together with our customers, we are driven to make healthcare better.

Symbios UK Ltd 67

01392 272786
enquiries@symbiosorthopaedics.co.uk
www.symbiosorthopaedics.co.uk

3D Planning software supports SYMBIOS® Implant Strategy. Symbios UK announce the continued development of its 3D HipPlan® planning software. Validation of the process (JBJS 91- B, No. 3, March 2009) reported limb length reconstruction and offset to within 0.3mm and 0.8mm respectively. The 15 year results for our CUSTOM implant option (CORR, 2009) reported 93% survivorship in 233 complex/dysplastic hips, all patients less than 50 years old. This technology has now been transposed to offer the clinician Patient Specific Cut Guides and Single Use Instrumentation – KneePLAN SET- to optimised 3D reconstruction of the knee using the most sophisticated methods within the most competitive economic model available to the European marketplace.

Trust Health Ltd

01403 241484
 info@trusthealth.co.uk
 www.trusthealth.co.uk

Trust Health Ltd and PPM Software have collaborated to form a unique partnership and one-stop-shop for your invoicing and collection services. Come and find out how we can increase your income and streamline your practice. We also provide a bureau of practice management services including establishing LLPs, commissioning and business support services within the NHS and private sector. We have been established for eleven years and are the largest provider of business services for consultants in the UK.

United Kingdom Knee Osteotomy Registry (UKKOR)

0333 014 6363
 harry@ukkor.co.uk
 www.ukkor.co.uk

Established in 2014, the United Kingdom Knee Osteotomy Registry (UKKOR) is dedicated to recording patient outcomes from osteotomies around the knee. UKKOR aims to improve our understanding of knee osteotomy performance and longevity. It is designed to benefit both surgeons and patients through the collection of demographic, radiographic, surgical and PROMs to accurately quantify the success of knee osteotomy and drive research to modify surgical technique and continuously improve patient outcomes.

57 VirtaMed

00 41 44 500 96 90
 sales@virtamed.com
 www.virtamed.com

VirtaMed is a Swiss company with an interdisciplinary background in medicine and engineering. Our high-fidelity virtual reality simulators provide instructional teaching and training of different minimally invasive diagnostic and therapeutic interventions in orthopedics, urology, and women's health. VirtaMed also creates customized simulators for medical associations and industry.

Wardray Premise

1 0208 398 9911
 sales@wardray-premise.com
 www.wardray-premise.com

Wardray Premise is a long-established company specialising in manufacture of all types of Radiation Shielding for medical applications. X-Ray protective products include, Screens, Doors, Lead Glass Windows and Workstations. Imaging accessories include Lead Aprons, protective eyewear, X-Ray patient trolleys, Scoliosis, Proctology chairs and X-Ray Steps for use with DR/CR Panels for taking weight bearing X-Rays. In addition, we supply orthopaedic positioning and scaling calibration devices for hip and bone axis.

23 World Orthopaedic Concern (WOC)

020 7405 6507
 deepa.bose@uhb.nhs.uk
 www.wocuk.org

World Orthopaedic Concern UK is a charitable society affiliated with the British Orthopaedic Association, and linked to World Orthopaedic Concern International. Our aims are to facilitate orthopaedic training in low/middle income countries (LMICs). We achieve this by: Training local surgeons in LMICs during regular visits to their hospitals; Providing examiners for orthopaedic examinations; Running short focused courses on specific topics; Facilitating long and short term visits by UK surgeons; Facilitating UK trainee fellowships to LMICs.

Podium Presentations - Tuesday 19th September 2017

08:55 – 09:55
Sports Trauma and Arthroscopy
with free papers
Meeting Room 3A

631 **09:10**

How do Hip Kinetic and Kinematic Changes Compare to those at the Knee during Soccer Match Play Cutting and What is their influence on the ACL?

R. Kaila¹, G. Irwin²

¹Royal National Orthopaedic Hospital, London, United Kingdom, ²Cardiff Metropolitan University, Head of Sports Biomechanics, Cardiff, United Kingdom

859 **09:15**

Shoulder Instability in Elite Academy Rugby Players - The Significance of Shoulder Laxity

P. Macdonald¹, Z. Zivardeen²

¹Cardiff Metropolitan University, Cardiff, United Kingdom, ²Homerton University Hospital, London, United Kingdom

414 **09:20**

Incidence of syndesmotic mal-reduction detected by postoperative CT scan

T. El Said¹, B. El Yafawi²

¹Rashid Hospital- Dubai Health Authority, Orthopaedic and Trauma Surgery, Dubai, United Arab Emirates, ²Rashid Hospital- Dubai Health Authority, Orthopaedic and Trauma, Dubai, United Arab Emirates

485 **09:00**

Effects of anterior cruciate reconstruction surgery and non-concurrent strength and endurance rehabilitation on objective functional, musculoskeletal and neuromuscular performance: A prospective, random-allocation controlled study

A.K. Bailey¹, S.N.J. Roberts², P.D. Gallacher², A.J. Barnett², N.P. Gleeson³

¹RIAH Orthopaedic NHS Foundation Trust, Physiotherapy, Oswestry, United Kingdom, ²RIAH Orthopaedic NHS Foundation Trust, Orthopaedic and Sports Injury Surgery, Oswestry, United Kingdom, ³Queen Margaret University, School of Health Sciences, Edinburgh, United Kingdom

903 **09:05**

The changing face of serious bicycle injuries from a UK Regional Trauma Centre; 2000 - 2016

R. Lloyd, A. Tucker, P. Archbold, N. Eames

Royal Victoria Hospital, Trauma and Orthopaedic Surgery, Belfast, United Kingdom

Notes

Podium Presentations - Tuesday 19th September 2017

931 **09:10**

Modified LARS Ligament Technique for Horizontal Stability in Acromioclavicular Separation

G. Prasad, S. Robinson, S. Macinnes, A. Sinha

Chesterfield Royal Hospital, Trauma and Orthopaedic Surgery, Chesterfield, United Kingdom

DISCUSSION **09:15**

304 **09:21**

Surgical Management of Thoracolumbar Kyphosis in Patients with Mucopolysaccharidosis: Results of a Systematic Review

D. Eastwood^{1,2}, P. Cundy^{3,4}, N. Williams^{3,4}

¹Great Ormond Street Hospital, Orthopaedic Surgery, London, United Kingdom, ²Royal National Orthopaedic Hospital, Orthopaedic Surgery, Stanmore, United Kingdom, ³Women's and Children's Hospital, Orthopaedic Surgery, North Adelaide, Australia, ⁴University of Adelaide, Centre for Orthopaedic and Trauma Research, Adelaide, Australia

513 **09:26**

An audit of corticosteroid prescribing in surgically managed metastatic spinal cord compression

D.J. Sudbury, M.J. Anderton

Salford Royal NHS Foundation Trust, Spinal Surgery, Salford, United Kingdom

870 **09:31**

Nerve Transfer surgery as a salvage option for severe recalcitrant motor radiculopathy

T. Chaudhry, S. Tan, D. Power

Queen Elizabeth Hospital Birmingham, Birmingham, United Kingdom

DISCUSSION **09:36**

427 **09:42**

Role of Routine Blood Tests in Predicting Clinical Outcomes in Osteosarcoma Patients

P. Jettoo, C. Gerrand, K. Rankin

Freeman Hospital, Musculoskeletal and Tumour Department, Newcastle, United Kingdom

674 **09:47**

Does the modified Glasgow Prognostic Score aid in the management of patients undergoing surgery for a soft tissue sarcoma?

S. Spence, O. Alanie, J. Ong, S. Gupta, A. Mahendra

Glasgow Royal Infirmary, Trauma and Orthopaedics, Glasgow, United Kingdom

Notes

Podium Presentations - Tuesday 19th September 2017

14:15 – 15:55
Trauma free papers
Meeting Room 3A

730 14:20

Functional Outcome and Gait after Lisfranc fracture dislocations treated with Percutaneous Reduction and internal fixation

S. Agarwal, E. Iliopoulos, A. Khaleel
Ashford and St Peter's Hospital, Trauma and Orthopaedics, Chertsey, United Kingdom

42 14:25

Do trauma courses change practice? A qualitative review of courses in East, Central and Southern Africa

R. Ologunde, G. Le, J. Turner, H. Pandit, N. Peter, D. Maurer, S. Hodgson, J. Larvin, C. Lavy
University of Oxford, Nuffield Department of Orthopaedics Rheumatology and Musculoskeletal Science, Oxford, United Kingdom

138 14:30

Intramedullary fibular fixation is a versatile tool in the operative management of fractures of the distal tibia and fibula

M. Smith, Z. Hakim, A. Singh
Royal Liverpool and Broadgreen University Hospital, Trauma and Orthopaedic Surgery, Liverpool, United Kingdom

DISCUSSION 14:35

160 14:41

The clinical and cost effectiveness of a virtual fracture clinic service: an interrupted time series analysis and before-and-after comparison

A. McKirdy¹, A. Imbuldeniya^{1,2}
¹West Middlesex University Hospital, Chelsea and Westminster NHS Foundation Trust, Department of Trauma and Orthopaedics, London, United Kingdom, ²Imperial College, London, United Kingdom

351 14:46

Management of undisplaced intracapsular fractures in a regional trauma centre

J.R.M. Craig, S. McDonald, R.J. Barr
Royal Victoria Hospital, Trauma and Orthopaedic Department, Belfast, United Kingdom

357 14:51

From CT Scan of a Bone to 3D Printed Model, Using Open Source Software and A Desktop Printer. Lessons Learned and Benefits Gained

B. Goldie
Nil, Southgate, United Kingdom

DISCUSSION 14:56

570 15:02

Standardised Virtual fracture clinic management of radiographically stable weber B ankle fractures is safe, cost effective and reproducible

S.F. Bellringer, K. Brogan, L. Cassidy, J. Gibbs
Brighton and Sussex University Hospitals Trust, Trauma and Orthopaedics, Brighton, United Kingdom

Podium Presentations - Tuesday 19th September 2017

580 15:07

The AIM Trial extended follow-up: Three year outcomes from an equivalence randomized clinical trial comparing close contact casting with internal fixation surgery for unstable malleolar fractures in patients over 60 years

K. Willett¹, D. Keene², R. Handley³, T. Chesser⁴, I. Pallister⁵, D. Mistry⁶, S. Lamb²

¹University of Oxford, NDORMS, Oxford, United Kingdom, ²University of Oxford, Oxford, United Kingdom, ³Oxford University Hospitals NHS Trust, Oxford, United Kingdom, ⁴North Bristol NHS Trust, Bristol, United Kingdom, ⁵Swansea University, Swansea, United Kingdom, ⁶University of Warwick, Warwick, United Kingdom

611 15:12

Patella fractures: Salvage knee replacement is rarely required

E.K. Davidson, A.D. Duckworth, J.F. Keating, T.O. White

NHS Lothian, Orthopaedics, Edinburgh, United Kingdom

DISCUSSION 15:17

613 15:23

Outcome of surgical fixation of complex rib fractures in a UK major Trauma Centre

H.J. Iqbal, S. Shah, L. Jayatilaka, S. Scott, S. Scott, D. Melling

University Hospital Aintree, Trauma and Orthopaedics, Liverpool, United Kingdom

757 15:28

Subcuticular sutures reduce the risk of wound complication after hip fracture surgery - a prospective randomised trial

R. Bawale¹, B. Singh², S. Sinha², J. Tyler², G. Gurung², R. Saini², A. Gulihar²

¹Medway Maritime Hospital, Trauma and Orthopaedics, Gillingham, United Kingdom, ²Medway Maritime Hospital, Orthopaedics, Gillingham, United Kingdom

971 15:33

Impact of a virtual fracture clinic model at a major trauma centre

A. Marsh, E. Laurent, C. Manville, G. Mills, P. Bates

Royal London Hospital, London, United Kingdom

DISCUSSION 15:38

14:15 – 15:55
Quality Improvement free papers
Meeting Room 4

81 14:20

The Effect of a Dedicated Hip Fracture Unit on the Outcome of Proximal Femoral Fractures

T. Walton¹, S. Bellringer², B. Rogers²

¹Brighton and Sussex Medical School, Brighton, United Kingdom, ²Brighton and Sussex University Hospitals Trust, Trauma and Orthopaedics, Brighton, United Kingdom

318 14:25

A novel use of QR code stickers after orthopaedic cast application

A. Gough, G. Fieraru, R. Kincaid, M. Butler, R. Middleton

Royal Cornwall Hospital, Trauma and Orthopaedics, Truro, United Kingdom

494 14:30

Online Spinal Referral Pathway in a regional referral centre

M. Arneill, I. Jidaal, S. Thomson, R. Dhokia, D. Gibson, N. Eames

Royal Victoria Hospital, Trauma and Orthopaedics, Belfast, United Kingdom

Notes

Notes

Podium Presentations - Tuesday 19th September 2017

DISCUSSION 14:35

696 14:41

The first review of NHS Litigation Authority risk summaries for claims against orthopaedic surgery to improve patient care - A collaboration between Getting It Right First Time (GIRFT), NHS Improvement and the NHS Litigation Authority

J.T. Machin^{1,2,3}, J. Hardman⁴, W.D. Harrison⁵, D.I.S. Sweetnam⁶, T.W.R. Briggs^{1,2}

¹The Royal National Orthopaedic Hospital, Stanmore, Getting It Right First Time, London, United Kingdom, ²NHS Improvement, London, United Kingdom, ³Nottingham University Hospitals NHS Trust/Queens Medical centre, Nottingham, United Kingdom, ⁴Chelsea and Westminster Hospital, London, United Kingdom, ⁵Royal Liverpool and Broadgreen University Hospitals, Liverpool, United Kingdom, ⁶The Whittington Hospital, London, United Kingdom

91 14:46

Virtual Total Hip Arthroplasty Follow Up: 5 year data in a busy district general hospital

R. Fisher, F. Khatun, S. Reader, M. Porteous

West Suffolk Hospital, Bury St Edmunds, United Kingdom

Notes

105 14:51

Manipulations in trauma theatre: A wasted resource?

J. Nicholson, L. Yapp, E. Dunstan

Victoria Hospital, Department of Orthopaedics, Fife, United Kingdom

DISCUSSION 14:56

148 15:02

Adopting and sustaining a Virtual Fracture Clinic model: A Quality Improvement approach

K. Logishetty^{1,2}, S. Soosainathan²

¹Imperial College London, London, United Kingdom, ²West Middlesex University Hospital, Chelsea and Westminster NHS Foundation Trust, London, United Kingdom

161 15:07

Reducing the number of arthroscopies in knee osteoarthritis: the Personalised Knee Improvement Programme (P-KIP)

T. Barlow¹, T. Rhodes-Jones¹, S. Ballinger¹, A. Metcalfe^{1,2}, D. Wright¹, P. Thompson¹

¹University Hospitals of Coventry and Warwickshire, Coventry, United Kingdom, ²University of Warwick, Coventry, United Kingdom

249 15:12

Developing a new NHS hybrid basic admin/ clinical un-Registered Band 3 role of 'Doctors' Assistant' and evaluation of the role's impact on the workload of doctors in training

S. McNally¹, C. Lee¹, A. Hunt², J. Huber³, M. Mazza⁴

¹East Sussex NHS Trust, Department of Orthopaedics, Eastbourne, United Kingdom, ²East Sussex NHS Trust, Eastbourne, United Kingdom, ³Brighton University, Centre for Health Research, Brighton, United Kingdom, ⁴Kings College London, London, United Kingdom

DISCUSSION 15:17

267 15:23

Day Zero mobilisation of hip and knee replacements

A. Tildesley, M. Divekar

Royal Cornwall Hospital, Truro, United Kingdom

Podium Presentations - Tuesday 19th September 2017

992 15:28

A new clinical pathway for acute traumatic shoulder dislocations in a teaching hospital setting: Quality Improvement project

A. Titchener, P. Hallikeri, A. Krishan, M.

Bateman, A. Tambe, M. Espag, T. Cresswell, D. Clark

Royal Derby Hospital, Derby, United Kingdom

181 15:33

The Financial Implications of Blood Group and Save Analysis on Patients Requiring Primary Total Knee Arthroplasty Surgery

O. Pearce¹, A. Smith¹, J. Heal¹, B. Kyle²

¹Musgrove Park Hospital, Trauma and Orthopaedics, Taunton, United Kingdom, ²Musgrove Park Hospital, Anaesthetics Department, Taunton, United Kingdom

16:15 – 17:45
General Orthopaedic free papers
Meeting Room 3A

298 16:20

The Deterioration in Health Related Quality of Life (HRQOL) of patients on the waiting list for total knee replacement

K.K.W. Ho¹, G. Pong¹, K.Y. Chung², K.W. Cheung³, Y.Y. Kwok⁴, K.H. Chiu², M.Y.T. Hau⁵

¹The Chinese University of Hong Kong, Orthopaedics and Traumatology, Hong Kong, Hong Kong, ²Prince of Wales Hospital, Orthopaedics and Traumatology, Hong Kong, Hong Kong, ³Private Practice, Hong Kong, Hong Kong, ⁴The Chinese University of Hong Kong, The Nethersole School of Nursing, Hong Kong, Hong Kong, ⁵Kettering General Hospital, Kettering, United Kingdom

376 16:25

Five- to twelve-year outcomes of medial opening-wedge high tibial osteotomy with rigid plate fixation in combination with an artificial bone substitute

T. Saito, K. Kumagai, Y. Akamatsu, H. Kobayashi, Y. Kusayama

Yokohama City University, Department of Orthopaedic Surgery, Yokohama, Japan

354 16:30

Multivariate and univariate analysis of weekend phenomenon for elective lower limb joint replacements

B. Guevel¹, W.T.E. Briggs², A.W. McCaskie³, S.M. McDonnell³

¹Addenbrookes Hospital, Trauma and Orthopaedic Department, Cambridge, United Kingdom, ²University of Cambridge, Cambridge, United Kingdom, ³University of Cambridge, Division of Trauma and Orthopaedic Surgery, Cambridge, United Kingdom

DISCUSSION 16:35

53 16:41

Hip and Knee arthroplasty in a temporary operating theatre is associated with a significant increase in deep periprosthetic infection

B. Bloch, A. Shah, S. Snape, T. Boswell, P. James

Nottingham University Hospitals NHS Trust, Nottingham, United Kingdom

Notes

Podium Presentations - Wednesday 20th September 2017

14:50 – 16:20		DISCUSSION	15:10	DISCUSSION	15:31
Foot and Ankle free papers Meeting Room 12		98	15:16	370	15:37
395	14:55	The Deltoid Ligament: The gatekeeper to midfoot collapse in adult acquired flatfoot disorder		Buried K wire technique for PIP fusion	
Fixation of Ankle Fractures - A Major Trauma Centre's Experience in Improving Quality		N. Ormsby ¹ , P. Evans ¹ , G. Jackson ¹ , S. Platt ²		S. Lynch, D. Locker, T. Syed, K. Chirputkar, R. Thomas	
L. Jayatilaka, S. Whitehouse, L. Mason, A. Molloy		¹ Wirral University Teaching Hospital, Wirral, United Kingdom, ² Gold Coast University Hospital, Southport, Australia		DISCUSSION	15:42
University Hospital Aintree, Liverpool, United Kingdom		236	15:21	506	15:42
240	15:00	The use of a dorsal locking plate in arthrodesis of the first metatarsophalangeal joint. Does preoperative hallux valgus increase the rate of non-union?		Manipulation under anaesthesia and steroid injection for pain and stiffness after surgery to the first metatarsophalangeal joint	
The resistance to failure of spring ligament reconstruction		A. Kaye, G. Williams, C. Butcher, A. Molloy, L. Mason		S. Ajwani, C. Kocalkowski, R. Hill, N. Kurdy	
A. Devany, C. Pasapula		¹ University Hospital of South Manchester, Orthopaedics, Manchester, United Kingdom		DISCUSSION	15:47
Queen Elizabeth Hospital, Trauma and Orthopaedics, King's Lynn, United Kingdom		643	15:47	Speedbridge re-attachment of the Achilles tendon for Insertional Tendinopathy	
839	15:05	The Leicester Achilles Management Protocol (LAMP): A treatment strategy for Achilles rupture		A. Davies, P. Robinson, V. Sinclair, W. Harries, I. Winson, S. Hepple	
Outcomes following silastic arthroplasty or 1st metatarsophalangeal joint arthrodesis for hallux rigidus: A prospective comparative series		M.S. Patel, R. Aujla, A. Jones, M. Bhatia		¹ North Bristol NHS Trust, Bristol, United Kingdom	
S. Eastwood, A. Kingman, S. Asaad, J. Coorsh, R. Kakwani, A. Murty, D. Townshend		¹ University Hospitals of Leicester NHS Trust, Trauma and Orthopaedic, Leicester, United Kingdom		DISCUSSION	15:52
Northumbria Healthcare NHS Trust, Newcastle-upon-Tyne, United Kingdom					

Notes

Podium Presentations - Wednesday 20th September 2017

416 15:58 DISCUSSION 16:13

Defining Gastrocnemius Tightness-A study on 400 participants without foot and ankle pathology

O. Chan, B. Buraimoh, K. Malhotra, N. Cullen, M. Welch, A. Goldberg, D. Singh

Royal National Orthopaedic Hospital, London, United Kingdom

438 16:03

Patient factors affecting outcome following morton's neuroma excision: a prospective study

V. Bucknall¹, D. Rutherford¹, D. MacDonald², H. Shalaby¹, J. McKinley¹, S. Breusch¹

¹Royal Infirmary of Edinburgh, Trauma and Orthopaedic Surgery, Edinburgh, United Kingdom, ²University of Edinburgh, Edinburgh, United Kingdom

498 16:08

Reducing the hypertensive effects of the prolonged surgical tourniquet using a dual-cuff strategy: a prospective randomised controlled trial

D. Gill, M. Dunne, A. Memarzadeh, A. Devany, L. Perry, A. Magan, C. Pasapula, J. Stimpson

Queen Elizabeth Hospital, King's Lynn, United Kingdom

Notes

Podium Presentations - Thursday 21st September 2017

10:30 – 12:00
Knee free papers
Meeting Room 4

163 10:35

Unsatisfactory outcomes following unicompartmental knee replacement for partial thickness cartilage loss: A medium term follow up

T. Hamilton¹, H. Pandit², A. Inabathula¹, S. Ostlere³, C. Jenkins⁴, S. Mellon¹, C. Dodd⁴, D. Murray^{4,5}

¹University of Oxford, Nuffield Department of Orthopaedics, Rheumatology and Musculoskeletal Sciences, Oxford, United Kingdom, ²University of Leeds, Leeds, United Kingdom, ³Manor Hospital, Oxford, United Kingdom, ⁴Nuffield Orthopaedic Centre, Oxford, United Kingdom, ⁵University of Oxford, Oxford, United Kingdom

914 10:40

A Randomised Clinical Trial on Patellofemoral vs. Total Knee Replacement for Patellofemoral Osteoarthritis

A. Odgaard¹, F. Madsen², P.W. Kristensen³, A. Kappel⁴, J. Fabrin⁵

¹Copenhagen University Hospital, Department of Orthopaedics, Hellerup, Denmark, ²Aarhus University Hospital, Dept. of Orthopaedics, Aarhus, Denmark, ³Vejle Hospital, Department of Orthopaedics, Vejle, Denmark, ⁴Aalborg University Hospital, Department of Orthopaedics, Aalborg, Denmark, ⁵Koege Hospital, Department of Orthopaedics, Koege, Denmark

90 10:45

The Correlation between Patient Reported Outcome Measures and Advanced Biomechanics in Knee Osteoarthritis

G. Tawy¹, M. Simons², P. Rowe¹, L. Biant³

¹University of Strathclyde, Biomedical Engineering, Glasgow, United Kingdom, ²University of Edinburgh, Edinburgh, United Kingdom, ³University of Manchester, Manchester, United Kingdom

DISCUSSION 10:50

95 10:56

Randomised Control Trial: The functional benefits of retaining the infrapatellar fat pad in a Total Knee Replacement

A. Howard¹, M. Ballal², M. Cartwright-Terry³, A. Santini², A. Wood⁴, J. Davidson², A. Phillipson², J. Banks²

¹Leeds General Infirmary, Academic Department of Trauma and Orthopaedics, Leeds, United Kingdom, ²Royal Liverpool and Broadgreen University Hospital, Liverpool, United Kingdom, ³Southport and Ormskirk District Hospital, Ormskirk, United Kingdom, ⁴University of Liverpool, Liverpool, United Kingdom

14 11:01

2D/3D EOS imaging versus standing long leg x-ray in lower limb clinical assessment - inter-observer and intra-observer reliability

M. Hau¹, D. Menon¹, R. Wong², K.Y. Chung², J. Chau³, K.W. Ho³

¹Kettering General Hospital, Kettering, United Kingdom, ²Prince of Wales Hospital, Sha Tin, Hong Kong, ³The Chinese University of Hong Kong, Sha Tin, Hong Kong

Notes

Podium Presentations - Thursday 21st September 2017

308 11:06

Minimum 20-year Survivorship of the St Georg Sled medial Unicompartmental Knee Replacement (UKR)

A. Porteous¹, R. Bray¹, P. White², N. Howells¹, J. Robinson¹, J. Murray¹

¹Avon Orthopaedic Centre, Bristol, United Kingdom, ²University of Bristol, Bristol, United Kingdom

DISCUSSION 11:11

309 11:17

Minimum 20-year Survivorship of the St Georg Sled lateral Unicompartmental Knee Replacement (UKR)

A. Porteous¹, R. Bray¹, P. White², J. Robinson¹, N. Howells¹, J. Murray¹

¹Avon Orthopaedic Centre, Bristol, United Kingdom, ²University of Bristol, Bristol, United Kingdom

Notes

977 11:22

Correlation between varus deformity of the knee and dynamic biomechanical loading in patients with isolated medial compartment osteoarthritis listed for High Tibial Osteotomy (HTO)

W. Abdul¹, G. Whatling², D. Elson¹, P. Biggs², A. Metcalfe¹, C. Holt², C. Wilson¹

¹University Hospital of Wales Cardiff, Trauma and Orthopaedics, Cardiff, United Kingdom, ²Cardiff University, The Arthritis Research UK Biomechanics and Bioengineering Centre, Cardiff, United Kingdom

271 11:27

Does The Site of Varus Deformity Identify Those at Higher Risk of Progression in Early Symptomatic Osteoarthritis of the Knee: data from the Osteoarthritis Initiative (OAI)

J. Palmer¹, L. Jones², P. Monk², D. Beard³, K. Javaid³, A. Price³

¹University of Oxford, Nuffield Department of Orthopaedics Rheumatology and Musculoskeletal Sciences, Oxford, United Kingdom, ²Nuffield Orthopaedic Centre, Oxford, United Kingdom, ³University of Oxford, Oxford, United Kingdom

DISCUSSION 11:32

488 11:38

Activity levels and return to work following total knee arthroplasty in patients under 65 years of age

C. Scott¹, G. Turnbull², D. MacDonald³, S. Breusch³

¹Royal Infirmary of Edinburgh, Orthopaedics, Edinburgh, United Kingdom, ²University of Glasgow, Glasgow, United Kingdom, ³Royal Infirmary of Edinburgh, Edinburgh, United Kingdom

599 11:43

Impact of Deprivation on the WOMAC index and SF-12v1 in primary knee arthroplasty patients in Merseyside, UK

A. Elsheikh^{1,2}, A. Wood³, M. Roebuck³, A. Santini², J. Banks², J. Davison², S. Frostick³

¹Faculty of Medicine, Benha University, Orthopaedic Surgery Department, Benha, Egypt, ²Royal Liverpool and Broadgreen University Hospitals NHS Trust, Trauma and Orthopaedics Department, Liverpool, United Kingdom, ³Institute of Translational Medicine, University of Liverpool, Musculoskeletal Science Research Group, Department of Molecular and Clinical Cancer Medicine, Liverpool, United Kingdom

Podium Presentations - Thursday 21st September 2017

744 11:48

Alignment in Total Knee Arthroplasty: a comparison of hand-held accelerometer-based navigation with patient specific and standard instruments

C. Jayadev¹, L. Daniele², C. Ioannou², P. Gallie²

¹Nuffield Orthopaedic Centre, Oxford, United Kingdom, ²Gold Coast University Hospital, Gold Coast, Australia

DISCUSSION 11:53

10:30 – 12:00
Simulation with free papers
Meeting Room 12

189 10:35

Training safer knee arthroscopists: a randomised controlled trial demonstrating the benefits of the Imperial Knee Arthroscopy Cognitive Task Analysis (IKACTA) tool in high-fidelity phantom limb simulation

R. Bhattacharyya¹, D. Davidson¹, K. Sugand¹, M. Bartlett², R. Bhattacharya¹, C. Gupte¹

¹MSK Lab, Imperial College London, Trauma and Orthopaedics, London, United Kingdom, ²Northwick Park Hospital, Trauma and Orthopaedics, London, United Kingdom

264 10:40

Generic Cognitive Task Analysis (GCTA) wizard - A tool to train orthopaedic trauma surgeons of the future

R. Bhattacharyya¹, K. Sugand¹, I. Sinha², R. Bhattacharya², C. Gupte¹

¹MSK Lab, Imperial College London, Trauma and Orthopaedics, London, United Kingdom, ²Imperial College Healthcare NHS Trust, Trauma and Orthopaedics, London, United Kingdom

Notes

761 10:45

A Virtual Reality Fundamentals of Arthroscopic Surgery Training Programme improves knee arthroscopy performance

K. Vaghela, J. Lee, K. Akhtar

Royal London Hospital, Department of Trauma and Orthopaedic Surgery, London, United Kingdom

791 10:50

Smartphone surgical simulation for Transforminal Lumbar Interbody Fusion (TLIF) procedure amongst orthopaedic registrars

R. Coomber¹, A. Bahoun², J. Nehme², A. Chow², M. Bowditch³

¹Addenbrookes Hospital, Cambridge, United Kingdom, ²Touch Surgery, London, United Kingdom, ³Ipswich Hospital, Ipswich, United Kingdom

Podium Presentations - Thursday 21st September 2017

740 **10:55**
Performance on a virtual reality DHS simulator correlates with performance in the operating theatre

K.R. Vaghela, J. Lee, K. Akhtar
 Royal London Hospital, Department of Trauma and Orthopaedic Surgery, London, United Kingdom

699 **11:00**
Dimensionless Squared Jolt (DSJ) - An objective measure in the assessment of arthroscopic surgical skills

M. Gandhi¹, A. Adikrishna², E. Kholinne³, H. Hong², I.-H. Jeon²

¹Robert Jones and Agnes Hunt Orthopaedic Hospital, Oswestry, United Kingdom, ²University of Ulsan, Department of Orthopaedic Surgery, Asan Medical Center, Seoul, Korea, Republic of, ³Upper Extremity Unit, Department of Orthopedic Surgery, St. Carolus Hospital, Jakarta, Indonesia

584 **11:05**
High Fidelity Multi-disciplinary Team Simulation Training for the Development of Non-Technical Skills in Trauma and Orthopaedics (T&O): A Feasibility Study

R. Smith, M. Williams, T. Ball
 Torbay and South Devon NHS Foundation Trust, Trauma and Orthopaedics, Torquay, United Kingdom

14:35 – 15:45
 Trauma free papers
 Meeting Room 3A

119 **14:40**
Total Hip Replacement in Complex Acetabular Fractures Using a Coned Hemipelvic Acetabular Component

S.E. McMahon, L.A. Cusick
 Royal Victoria Hospital, Belfast, United Kingdom

760 **14:45**
A Retrospective Review of 76 consecutive Atypical Femoral Fractures Managed with Intramedullary Nailing over an 8 Year Period. Demographics, Outcomes and Predictors of Complications

O.M. Farhan-Alanie, A.J. Powell, J.K. Bryceland
 Glasgow Royal Infirmary, Glasgow, United Kingdom

Podium Presentations - Thursday 21st September 2017

879 **14:50**
Does achieving the 'Best Practice Tariff' criteria for fractured neck of femur patients improve one year outcomes?

S. Whitaker¹, S. Nisar¹, A. Scally², G. Radcliffe¹
¹Bradford Royal Infirmary, Trauma and Orthopaedic Surgery, Bradford, United Kingdom, ²University of Bradford, School of Allied Health Professions and Sport, Bradford, United Kingdom

DISCUSSION **14:55**

901 **15:01**
Medium and Long-Term Functional, Urological and Sexual Outcome after Operatively Treated Pelvic Ring Fractures

A. Bott¹, A. Odutola², R. Haliday¹, M.R. Acharya¹, A. Ward¹, T. Chesser¹

¹North Bristol NHS Trust, Orthopaedics, Bristol, United Kingdom, ²Weston General Hospital, Department of Orthopaedics, Weston Super Mare, United Kingdom

966 **15:06**
Venous Thrombo-Embolic (VTE) Following Tranexamic Acid (TXA) In the Trauma Patient

T. Leggett, J. Blackwell, J. Kukadia, R. Sahemey, R. Lopes, H. Nasir, M. Greenway
 Royal Stoke University Hospital, Stoke on Trent, United Kingdom

986 **15:11**
Closed Tibial shaft fractures treated with the Ilizarov method; a ten year case series

T. Paavana, J.D. May, J. McGregor-Riley, S. Royston

Sheffield Teaching Hospitals NHS FT, Trauma and Orthopaedics, Sheffield, United Kingdom

DISCUSSION **15:16**

491 **15:22**
Native hip survival and long term patient reported outcomes following acetabular fracture

C. Scott, T. White, S. Goudie, J. Annan, D. MacDonald, J. Keating

Royal Infirmary of Edinburgh, Edinburgh, United Kingdom

554 **15:27**
The Fibular nail experience: clinical and patient-reported outcomes in 445 patients

S. Mackenzie, T. Carter, K. Bell, A. Duckworth, K. Bugler, D. Macdonald, T. White

Royal infirmary of Edinburgh, Edinburgh Orthopaedic Trauma, Edinburgh, United Kingdom

558 **15:32**
Clinical and Radiographic Outcomes of Talar Fractures

P. Stirling, S. Mackenzie, R. Ray, N. Clement, C. McCann, J. Keating

Royal Infirmary of Edinburgh, Edinburgh Orthopaedic Trauma, Edinburgh, United Kingdom

DISCUSSION **15:37**

Notes

Notes

Podium Presentations - Thursday 21st September 2017

16:00 – 17:00
Spine free papers
Meeting Room 3B

316 **16:05**
Spinal Injuries in Rugby Union - A Comparison with cycling over 15 years

L.E. Murphy¹, P. Karayiannis¹, S. McDonald¹, C. Bleakley², R. Nicholas³, P. Archbold³, N. Eames¹

¹Royal Victoria Hospital, Fractures, Belfast, United Kingdom, ²Ulster University, Sport and Exercise Science Research Institute, Belfast, United Kingdom, ³Musgrave Park Hospital, Belfast HSC Trust, Orthopaedics, Belfast, United Kingdom

69 **16:10**
Impact of Introducing Spinal Pain Pathway in an NHS Region (Northern Ireland)

E. Simpson, G. Graham, N. Eames

Musgrave Park Hospital, Belfast HSC Trust, Physiotherapy, Belfast, United Kingdom

535 **16:15**
Management of complex spinal column infections following endovascular aortic repair (EVAR) surgery. 10 year experience

S. Lakkol, O. Lyons, M. Sallam, N. Price, R. Bell, J. Lucas

Guy's and St Thomas' NHS Foundation Trust, London, United Kingdom

DISCUSSION **16:20**

638 **16:26**

Accuracy of MRI in assessing spinal instability using the Spinal Instability Neoplastic Score (SINS) criteria

B. Barmayehvar¹, S. Hughes², A. Killingworth², S. Kathir Kamarajah¹, M. Grainger²

¹University of Birmingham, College of Medical and Dental Sciences, Birmingham, United Kingdom, ²Royal Orthopaedic Hospital NHS Foundation Trust, Spinal Services, Birmingham, United Kingdom

223 **16:31**
The results of early surgical decompression and stabilisation for acute traumatic spinal cord injury in patients with concomitant chest injuries

I. Mahmood¹, A. Al-Rawi¹, K. Bell¹, W. Hekal¹, R. Kalyan¹, S. Tizzard¹, M. Mecci¹, M. Sewell^{1,2}, R. Williams²

¹James Cook University Hospital, Middlesbrough, United Kingdom, ²Princess Alexandra Hospital, Brisbane, Australia

733 **16:36**

The outcomes of spinal stenosis surgical treatment in Achondroplasia: A systematic review

Z. Abual-Rub¹, J. Campbell¹, A. Khan¹

¹Leeds General Infirmary, Trauma and Orthopaedics, Leeds, United Kingdom, ²Chapel Allerton Orthopaedic Hospital, Clinical Genetics, Leeds, United Kingdom

DISCUSSION **16:41**

Podium Presentations - Thursday 21st September 2017

778 **16:47**
MUA and Injection: Quick fix for the Coccyx?

T. Stedman, B. Haywood-Alexander, A. Fong, M. Athanassacopoulos, L. Breakwell, N. Chiverton, A. Cole, M. Ivanov, R. Michael, J. Tomlinson

Sheffield Teaching Hospitals NHS FT, Sheffield, United Kingdom

999 **16:52**

Incidence of Schwab sagittal modifiers in patients with failed back surgery

S. Khan¹, Z. Mon¹, D. Liu², S. Molloy¹

¹Royal National Orthopaedic Hospital, London, United Kingdom, ²St George's University Hospitals NHS Foundation Trust, London, United Kingdom

156 **16:57**

Spinopelvic dissociation following trauma - The Royal Melbourne Hospital Experience

D.J. De Villiers¹, J. Cunningham^{1,2}, S. Lau¹, P. Turner^{1,2}

¹The Royal Melbourne Hospital, Orthopaedics, Melbourne, Australia, ²Spine Society of Australia, Melbourne, Australia

DISCUSSION **17:02**

16:00 – 17:00
Shoulder and Elbow free papers
Meeting Room 11

93 **16:05**
How muscle patterning in patients with complex shoulder instability differs from the "norm"?

A. Howard¹, D. Hawkes², J. Gibson², O. Alizadehkhayat³, G. Kemp², S. Frostick²

¹Leeds General Infirmary, Academic Department of Trauma and Orthopaedics, Leeds, United Kingdom, ²University of Liverpool, Liverpool, United Kingdom, ³Hope University, Liverpool, United Kingdom

219 **16:10**

Glenohumeral Arthrodesis for Late Reconstruction of Flail Shoulder in Patients with Traumatic Supraclavicular Brachial Plexus Palsy

T. Thangarajah¹, S. Lambert²

¹The Royal National Orthopaedic Hospital, London, United Kingdom, ²University College London, London, United Kingdom

73 **16:15**

MRI and Clinical Assessment of Interpositional Dermal Allograft Repair of Massive Rotator Cuff Tears

C. Gouk¹, R. Shulman², C. Buchan², F. Taylor²

¹Gold Coast University Hospital, Trauma and Orthopaedics, Gold Coast, Australia, ²Gold Coast University Hospital, Gold Coast, Australia

DISCUSSION **16:20**

94 **16:26**

Can Clinical Scores in Shoulder Instability give use insight into Different Cortical Activation?

A. Howard¹, J. Gibson², J. Powell-Greig², D. Hawkes², O. Alizadehkhayat³, G. Kemp², S. Frostick²

¹Leeds General Infirmary, Academic Department of Trauma and Orthopaedics, Leeds, United Kingdom, ²University of Liverpool, Liverpool, United Kingdom, ³Hope University, Liverpool, United Kingdom
